**Military Installation Excellence** - Francis E. McIntire 2000-06-02

Frank McIntire is a 1974 graduate of the U.S. Air Force Academy, a management consultant, a U.S. Air Force fighter pilot, and an Assistant Professor of Behavioral Sciences and Leadership at the U.S. Air Force Academy. He led USAF operations in Europe and for NATO, as Chief of Operations, Quality Assurance, and the Functional Check Flight branch at Royal Air Force Upper Heyford in the United Kingdom. As Deputy Commander and Deputy Director for Air Force Quality Assurance, Frank directs the efforts of the 80-person global consulting agency for organizational development and business

transformation worldwide. As Manager with KPMG Peat Marwick LLP, he led the business process reengineering, organizational development, and business transformation efforts for DoD and commercial clients. In 2000, Frank helped his son win nominations and appointments to all five U.S. service academies. Also in 2000, Frank launched a service disabled veteran-owned small business that has grown to more than \$37 million in annual sales at the time of publication. Clients include KPMG and Oracle Corp., the Department of Defense, the Department of Veterans Affairs, the Department of Health and Human Services, the U.S. Intelligence Community, and Alaska Native Corporations. I oversee between 5 - 18 direct reports, lead teams of 30 - 70, and work with growing companies between 100 - 1,700 employees. My specialty is enterprise IT operations, cyber security, and professional IT consulting. I grow companies from \$10 million to more than \$540 million annual revenue. Frank is an expert in leading, training, coaching, mentoring, and growing teams of 5 - 18 direct reports, sales professionals, and road warriors, and leading global organizations of between 70 - 1,700 people, and business unit P&L \$32M; big wins of \$200 million and \$400 million single awards; support corporate growth to \$540 million annual revenue. Selling enterprise IT system implementations and upgrades (including cloud computing - PaaS, SaaS, IaaS; cyber security; managed services, ITSM and SDLC, IT operations and maintenance, and applications hosting). Leading Project Management and CONOPS development since 1985. Major projects include 6 - 24 months duration with complex tasks, timelines, staffing, and cost elements for: the Psychology in the DoD Symposium (1985-1988); Battle of Britain Airshow (1989-1990); launch of the Air Force Quality Institute

(1992-1995); the Quality Air Force Symposium (1993-1995); the Inspector General visit (1994-1995); the Peacekeeper Missile Action Workout (1995-1996); the Total Army Quality launch (1996-1998); the online Operational Test Program Management system (1999-2002); the Resource Allocation Management Plan (2001-2003); the Fort Carson Project Management Plan (2004); the Oracle National Security Strategic Plan and Conference (2005-2006); Oracle RDBMS, RAC, and ERP Federal Financial implementations (2005-2007); the Amtrak data center (2007-2008); the HHS IT0 data center implementation (2007-2010); the ECP management plan for enterprise IT systems and IT infrastructure projects (2009-present). Other projects along the way using MS Project and Sciforma Project Scheduler for planning, tracking, and reporting. Project Management Expert (1999) and Advanced Project Management Expert (2001) from the Avraham Goldratt Institute in New Haven, CT based on the Project Management Body of Knowledge (PMBOK) and Project Management Institute (PMI) standards. Implementing engineering change management for global agencies collaborating with NGA; providing system upgrades and implementations for network, storage, and database; and to support imagery deployment and exploitation for DoD units worldwide. These include all DoD branches, Defense Intelligence Agency (DIA), Defense Information Systems Agency (DISA), conformance with all DISA Security Technical Information Guides (STIGs), Department of State, and the broad US Intelligence Community.

*Coordinated information sharing and homeland security* - United States. Congress. House. Committee on Government Reform. Subcommittee on Technology and Procurement Policy 2003

**Ruthless Execution** - Amir Hartman 2013-12

Today's business leaders must know how to lead through adversity while also positioning their companies to reignite growth. Doing both requires exceptional deftness, deep insight, and a relentless focus on the leadership, capability, and governance areas that matter most. This guide shows how exceptional business leaders

successfully navigate through the inevitable times when performance flattens and everything gets tougher. If you haven't faced this challenge, you will-and your response may make or break your business. Amir Hartman and Craig LeGrande offer up-to-the-minute guidance on sharpening focus, optimizing "return on strategy," and balancing investments in performance and growth. They introduce new ways to capture more value at the board level, resurrect lost customer loyalty, leverage "cloudification," and use performance metrics without overwhelming people in trivia. Getting past "the wall" is today's most urgent and underappreciated executive challenge, and this second edition of *Ruthless Execution* includes brand-new examples and case studies to provide further insight. Read this book, and be ready. Book jacket.

**Application Service Providers in Business** - Luisa Focacci 2013-10-23

Learn how to use Application Service Providers to enhance the future of your business! *Application Service Providers in Business* is a comprehensive analysis of the present ASP model and its place in business today. Business success in today's information-intensive marketplace depends on a company's ability to acquire and fully use the latest advancements in business-critical applications. By having these applications delivered as services over the Internet, businesses can lessen the demands on company IT staff, and increase the ability to get complex software into use immediately. Within this context, a new outsourcing business model called ASP (Application Service Provider) has emerged that is transforming how businesses access and leverage software applications. The book explains the specific contingent ASP models, including business, enterprise,

functional-focused, and vertical market ASPs, and ASP aggregators. It demonstrates how different ASP models have fulfilled diverse market/customer expectations and explores future scenarios for current ASP business models. Case studies, tables, and figures illustrate important concepts and make complex information easy to access and understand. Based on a thorough analysis of the ASP market environment, the book provides detailed Best Practices Guidelines that managers of ASPs can use to improve the chances of success of their respective ASPs. It outlines contingency factors such as application offerings, customer selection, operations, and strategic fit. The book also not only assists business managers in deciding on whether to use an ASP, but it presents ways to use ASPs to effectively support their business process. The ability to provide the workforce with access to data whenever and wherever is crucial for positively impacting a company's profitability, and ASPs provide the software to make it possible. Topics included in Application Service Providers in Business are: Best Practices Guidelines strategic management management decision making and planning IT management and outsourcing future of the ASP market ASP business models and much more! Application Service Providers in Business is a comprehensive resource for executives, managers, professors, and business students in the US and worldwide. Using the information and guidelines provided, executives and managers can learn how to use ASPs to enhance their business, and managers of ASPs can learn how to increase their chance of success in the competitive ASP market. The material is also appropriate as a textbook for management and computer information/software development classes.

**Building the High-Performance Finance Function** - de Waal, André 2022-02-11

The finance function can be regarded as the spider in the organizational web, as it has relations with every part of the organization and is also represented on the executive board. Therefore, it is of utmost importance that this function takes the lead by quickly transforming itself into a high-performance finance function (HPFF), serving as a role model for other functions in the organization. Building the High-Performance Finance Function describes the development of the high-performance finance function (HPFF) framework and explores the experiences, lessons learned, and results achieved by finance functions that have transformed themselves into "HPFFs," or high-performance finance functions, using the HPFF framework. Covering a range of topics such as excellence in finance and high-performance organizations, it is ideal for industry professionals, teachers, researchers, academicians, practitioners, and students.

**Understanding New Media** - Kim H. Veltman 2006

This book outlines the development currently underway in the technology of new media and looks further to examine the unforeseen effects of this phenomenon on our culture, our philosophies, and our spiritual outlook.

*Expert Oracle Enterprise Manager 12c* - Kellyn Pot'Vin  
2013-08-13

Enterprise Manager 12c (EM12c), Oracle's newest and fully-integrated enterprise management product, now provides a complete cloud lifecycle management solution and enterprise environment management interface. Expert Oracle Enterprise Manager 12c opens up the secrets of this incredible management tool, saving you time while enhancing your visibility as someone management can rely upon to deliver reliable database service in today's increasingly chaotic and change-driven IT environment. Expert Oracle Enterprise Manager 12c covers all the

topics you demand and need to function effectively, from basic monitoring and configuration to advanced metric extensions and plugins. Real-life scenarios and demonstrations place you in the comfort zone of using the EM12c console, and the experienced author team provides deep understanding of the inner workings of this new Enterprise Manager. Database administrators and system administrators are expected to offer increasing levels of service for 24X7 systems and newer cloud environments. Em12c offers robust, end-to-end intelligent management of the complete environment. It includes direct, real-time integration with Oracle's online knowledgebase. Expert Oracle Enterprise Manager 12c helps you master this important tool and manage any challenge that comes your way. Provides example solutions to everyday problems through EM12c features. Explains the changes in EM12c, included trusted extensions. Focuses on advanced aspects of the EM12c interface.
