The Last Dive - Bernie Chowdhury 2012-01-03

“Superbly written and action-packed, The Last Dive ranks with such adventure classics as The Perfect Storm and Into Thin Air.”—Tampa Tribune Spurred on by a fatal combination of obsession and ambition, Chris and Chrisy Rouse, an experienced father-son scuba diving team, hoped to achieve wide-spread recognition for their outstanding and controversial diving skills by solving the secrets of a mysterious, undocumented, World War II German U-boat that lay only a half day’s mission from New York Harbor. The Rouses found the ultimate cost of chasing their personal challenge: death from what divers dread the most—decompression sickness, or “the bends.” In this gripping recounting of their tragedy, author Bernie Chowdhury, himself an expert diver, explores the thrill-seeking, high-risk world of deep sea diving, its legendary figures, most celebrated triumphs, and notorious tragedies.

[Whose Boat Is This Boat?](#) - The Staff of The Late Show with Stephen Colbert 2018-11-06

100% of The Late Show’s proceeds from this book go to hurricane relief. Whose Boat Is This Boat? Comments That Don’t Help in the Aftermath of a Hurricane is a picture book made entirely of quotations from President Donald Trump in the wake of Hurricane Florence. It is the first children’s book that demonstrates what not to say after a natural disaster. On September 19, 2018, Donald Trump paid a visit to New Bern, North Carolina, one of the towns ravaged by Hurricane Florence. It was there he showed deep concern for a boat that washed ashore. “At least you got a nice boat out of the deal,” said President Trump to hurricane victims. “Have a good time!” he told them. The only way his comments would be appropriate is in the context of a children’s book—and now you can experience them that way, thanks to the staff of The Late Show with Stephen Colbert. Whose Boat Is This Boat? is an excellent teaching tool for readers of all ages who enjoy learning about empathy by process of elimination. Have a good time!

Titanic's Last Secrets - Brad Matsen 2008-10-01

After rewriting history with their discovery of a Nazi U-boat off the coast of New Jersey, legendary divers John Chatterton and Richie Kohler decided to investigate the great enduring mystery of history's most notorious shipwreck: Why did Titanic sink as quickly as it did? To answer the question, Chatterton and Kohler assemble a team of experts to explore Titanic, study its engineering, and dive to the wreck of its sister ship, Britannic, where Titanic's last secrets may be revealed. Titanic's Last Secrets is a rollercoaster ride through the

shipbuilding history, the transatlantic luxury liner business, and shipwreck forensics. Chatterton and Kohler weave their way through a labyrinth of clues to discover that Titanic was not the strong, heroic ship the world thought she was and that the men who built her covered up her flaws when disaster struck. If Titanic had remained afloat for just two hours longer than she did, more than two thousand people would have lived instead of died, and the myth of the great ship would be one of rescue instead of tragedy. Titanic's Last Secrets is the never-before-told story of the Ship of Dreams, a contemporary adventure that solves a historical mystery.

The Secret Life of Lobsters - Trevor Corson 2009-10-13

"Lobster is served three ways in this fascinating book: by fisherman, scientist and the crustaceans themselves. . . . Corson, who worked aboard commercial lobster boats for two years, weaves together these three worlds. The human worlds are surely interesting; but they can't top the lobster life on the ocean floor." — Washington Post In this intimate portrait of an island lobstering community and an eccentric band of renegade biologists, journalist Trevor Corson escorts the reader onto the slippery decks of fishing boats, through danger-filled scuba dives, and deep into the churning currents of the Gulf of Maine to learn about the secret undersea lives of lobsters. This P.S. edition features an extra 16 pages of insights into the book, including author interviews, recommended reading, and more.
