Training for transformation - Anne Hope 1999

THIS IS THE 'SOUTHERN EDITION' OF THIS PUBLICATION AND CANNOT BE DISPATCHED TO ANY ADDRESS IN DEVELOPED REGIONS. TO PURCHASE THE 'NORTHERN EDITION' PLEASE SEE ISBN 9781853394614. Training for Transformation Book 4 is a practical and accessible workbook for community development workers. It recognises that the only changes which effectively transform the lives of poor people are those in which they have been active participants. This book, and the three earlier books in the Training for Transformation series, give many proved and practical ways of getting this process started. Book 4 focuses on five issues which have become more and more prominent in the concerns of communities throughout the world: the environment; gender and development; ethnic and racial

conflict; intercultural understanding; building participatory governance. Each section contains a rich selection of relevant material designed to stimulate interest and debate, including simulations, real life stories, telling statistics, news articles and poetry and drama from local communities. The authors have drawn on their direct experience of working on community development programmes in South Africa and the USA, as well as feedback from many other countries where the Training for Transformation approach has been adopted. The book is divided into easy to follow modules which can be covered in sequence or in any order. All the exercises have been extensively tested in the field and have been used successfully with groups in many different countries. Training for Transformation Book 4 will be ideal for adult education workers, social workers, community development workers, church workers

and trade union educators, and all organizations and individuals concerned with the process of transforming society. Rights: This special low-priced edition is for sale in the South only. ITDG Publishing's definition of the South is as follows: Africa, Asia excluding Singapore and Japan, the Middle East, Southern and Central America. The South does not include Europe, Australia, New Zealand, North America, Japan and Singapore. f

Imperialism - John Atkinson Hobson 1902

This document is from Empire Online, a powerful and interactive collection of primary source documents, sourced from leading archives around the world. This project has been developed to encourage undergraduates, postgraduates, academics and researchers to explore colonial history, politics, culture and society. Material in the collection spans five centuries, charting the story of the rise and fall of empires; from the explorations of Columbus, Captain Cook, and others, right through to de-colonisation in the second half of the twentieth century and debates over American Imperialism.

Banal Nationalism - Michael Billig 1995-09-25

Michael Billig presents a major challenge to orthodox conceptions of nationalism in this elegantly written book. While traditional theorizing has tended to the focus on extreme expressions of nationalism, the author turns his attention to the everyday, less visible forms which are neither exotic or remote, he describes as 'banal nationalism'. The author asks why people do not forget their national identity. He suggests that in daily life nationalism is constantly flagged in the media through routine symbols and habits of language. Banal Nationalism is critical of orthodox theories in

sociology, politics and social psychology for ignoring this core feature of national identity. Michael Billig argues forcefully that wi

Comparative Politics Today - Gabriel Abraham Almond 2003

The Seventh Edition Update of this market-leading text offers the most current and respected introduction to comparative politics available, with several updated country studies and a robust new Web site. Comparative Politics Today is the text that defined the discipline of comparative politics and continues to set the standard for the course with a brand new Web site and the most current country study chapters available. The chapters on England, France, Germany, Russia, Mexico, Japan, and the United States have all been thoroughly updated. A new, highly interactive Comparative Politics Web site (www.ablongman.com/comparativepolitics) is sure to engage today's students and help them learn. The site's features include: country profiles, interactive maps, practice tests, news links, web links, and more. As in the previous edition, theoretical chapters (Chapters 1 - 7) at the beginning of the book explore the "purpose of government" and provide students with a framework for understanding comparative politics. The theoretical section is followed by 12 individual country studies. All country studies are written by pre-eminent specialists on that particular country, ensuring that students have the most reliable information and insights into the political systems of those nations.

Indonesia Beyond Suharto - Donald K. Emmerson 2015-05-20

This text presents an accessible introduction to the most significant problems facing Indonesia and raises issues for further investigations. It addresses such questions as: how has Indonesia managed to remain one country?; and is there a truly national Indonesian

culture?

No Easy Choice - Samuel P. Huntington 2013-10-01

Which Equalities Matter? - Anne Phillips 2013-07-08

Democracy and democratization are now high on the political agenda, but there is growing indifference to the gap between rich and poor. Political equalities matter more than ever, while economic inequality is accepted almost as a fact of life. It is the separation between economic and political that lies at the heart of this book.

Riba, Bank Interest and the Rationale of Its Prohibition - Muhammad Nejatullah Siddiqi 2004

Reinventing Government - David Osborne 1992-02-13

In this policy-shaping book, Osborne and Gaebler show the way toward nothing less than an American perestroika, shaking up accepted notions of what governance means with success stories of ghetto schools that brilliantly educate, sanitation departments that make a profit, and police departments that are as efficient as any high-tech corporation.

History of Islamic Political Thought - Antony Black 2011-07-19

Second edition of the history of Islamic political thought that traces its roots from early Islam to the current age of Fundamentalism (622 AD to 2010 AD).

Islamic Revivalism in a Changing Peasant Economy - Christine Dobbin 2016-11-10

This title, first published in 1983, is a significant study of one of the many revivalist movements which flowered in numerous Islamic societies in the late

eighteenth and early nineteenth centuries, and attempts to provide one particular assessment of the place of revivalism in the evolution of Islamic societies. The subject of this title is the Padri movement, and the community involved is that of the Minangkabau of Central Sumatra, one of the major communities inhabiting the Indonesian archipelago. In the process of considering the reconstruction of a society in the throes of an agricultural transformation, the historical development of the Indonesian village became the object of attention, encompassing the economic and social histories of individual villages. This title will be of interest to students of history and Islamic Studies.

Gus Dur - Greg Barton 2002

In October 1999, Abdurrahman Wahid, almost blind and recovering from a nearfatal stroke, was elected as Indonesia's fourth president. Referred to as 'Indonesia's surprising new president' by the Economist, the man who had commanded the highest respect of his fellow countrymen for his lifetime devotion to public service, liberal democracy and tolerant Islam, was impeached in humiliating and controversial circumstances less than two years later. Wise to some, insolent to others, Abdurrahman's mercurial style of leadership constantly confounded critics and ultimately caused him to be widely misunderstood by both domestic and international observers. For the first time, biographer Greg Barton delves beneath the surface and gives us a unique insight into the man and his world drawn from his long relationship with Gus Dur - including being at his side during the final extraordinary months of the presidency. Those interested in the drama of modern Indonesian politics will find this book provides a fascinating and invaluable account of the enigmatic Gus

Dur.

Theories Of Comparative Politics - Ronald H Chilcote
2018-02-12

Extensively revised and updated, this classic text revisits the central problem of searching for mainstream and alternative paradigms to guide us in comparative political inquiry. Building upon the first edition's comprehensive and systematic overview of frameworks, ideologies, and theories, the second edition highlights new directions and developments over the past decade, including the continuation of an ideological political science methodological innovations such as rational-choice, historical, and postbehavioural approaches new emphases on and links between political culture and participation the recasting of modernization theory and the revitalization of class analysis and a thoroughgoing post-Keynesian political economy point of view. The second edition continues the tradition of the first in updating what one reviewer commended as outstanding, excellent annotated bibliographies at the end of each chapter and the thorough survey of the general literature of comparative politics at the end of the book." In addition, the new edition includes an appendix of definitions that facilitate clarity and understanding of political science terminology, important for students at every level from the introductory on up. In a post-Cold War world in which challenges to comparative inquiry abound, ethnic conflict, authoritarian repression, state building and disintegration, new industrialization and postindustrialization, security systems redefined, the search for new paradigms that Theories of Comparative Politics represents gains in importance daily.

Politics: Who Gets What, When, How - Harold D. Lasswell
2018-12-05

Politics: Who Gets What, When, How, which was first published in 1936, is the classic analysis of power and manipulation by ruling elites and counter-elites. The themes that occur throughout this essay have become the guideposts for most modern research in techniques of propaganda and political organization. "It is unquestionably one of the most influential treatments of politics published in this century."—David B. Truman, Prof. of Public Law and Government, Columbia University "This book is a landmark of modern political science."—Daniel Lerner, Professor of Sociology, M.I.T. "For over three decades the students of politics have had their intellectual horizons constantly broadened by Harold Lasswell. There is probably no man in American political science who has brought to bear as many new approaches to the analysis of political behaviour as he has. There is perhaps no better way to get the essence of Lasswell's thought than in his book, Politics: Who Gets What, When, How."—Seymour Martin Lipset, Department of Sociology, U.C. Berkeley

Sutasoma - Tantular (Mpu.) 2008

The 14th century Javanese epic poem, Sutasoma, relates the life of a prince, born an incarnation of the Jina-Buddha Wairocana. It follows his spiritual journey to enlightenment and his temporal journey through marriage, kingship and eventual victory over the mighty, world-threatening demon, Porusada. Kate O'Brien's new

translation delivers to the reader a highly approachable and lively rendition of this Buddhist epic, comparable in both complexity and scale to that of the Ramayana, yet significantly less known or understood.

World Development Report 2020 - World Bank 2019-11-19
Global value chains (GVCs) powered the surge of international trade after 1990 and now account for almost half of all trade. This shift enabled an unprecedented economic convergence: poor countries grew rapidly and began to catch up with richer countries. Since the 2008 global financial crisis, however, the growth of trade has been sluggish and the expansion of GVCs has stalled. Meanwhile, serious threats have emerged to the model of trade-led growth. New technologies could draw production closer to the consumer and reduce the demand for labor. And trade conflicts among large countries could lead to a retrenchment or a segmentation of GVCs. *World Development Report 2020: Trading for Development in the Age of Global Value Chains* examines whether there is still a path to development through GVCs and trade. It concludes that technological change is, at this stage, more a boon than a curse. GVCs can continue to boost growth, create better jobs, and reduce poverty provided that developing countries implement deeper reforms to promote GVC participation; industrial countries pursue open, predictable policies; and all countries revive multilateral cooperation.

A New Handbook of Political Science - Robert E. Goodin 1998

Aimed at political scientists, 'A New Handbook of Political Science' provides the definitive survey of new developments over the last 20 years, assessed in the context of historical trends in the field.

The Semisovereign People - Elmer Eric Schattschneider 1975

This book started out to be an attempt to formulate a theory of political organization. While the emphasis has shifted somewhat in the course of the writing, it is still a book about political organization, an attempt to work out a theory about the relation between organization and conflict, the relation between political organization and democracy, and the organizational alternatives open to the American people. The assumption made throughout is that the nature of political organization depends on the conflicts exploited in the political system, which ultimately is what politics is about. The thesis is that we shall never understand politics unless we know what the struggle is about. The great problem in American politics is: What makes things happen? We might understand the dynamics of American politics if we knew what is going on when things are happening. What is the process of change? What does change look like? These questions are worth asking because obviously tremendous things are going on in American public affairs, even in quiet times... To understand why Americans generally have been unconscious of the process of change it is necessary to take a new look at the dynamics of American politics. Throughout this book the emphasis has been on the dynamic character of the American political system. The concepts formulated here constitute an attack on all political theories, all research techniques and concepts tending to show that American politics is a meaningless stalemate about which no one can do anything. Because so much is going on, one object of the book is to show the need for a new public policy about politics.--from the Preface.

Identity in Democracy - Amy Gutmann 2009-01-10

Written by one of America's leading political thinkers, this is a book about the good, the bad, and the ugly of identity politics. Amy Gutmann rises above the raging polemics that often characterize discussions of identity groups and offers a fair-minded assessment of the role they play in democracies. She addresses fundamental questions of timeless urgency while keeping in focus their relevance to contemporary debates: Do some identity groups undermine the greater democratic good and thus their own legitimacy in a democratic society? Even if so, how is a democracy to fairly distinguish between groups such as the KKK on the one hand and the NAACP on the other? Should democracies exempt members of some minorities from certain legitimate or widely accepted rules, such as Canada's allowing Sikh members of the Royal Canadian Mounted Police to wear turbans instead of Stetsons? Do voluntary groups like the Boy Scouts have a right to discriminate on grounds of sexual preference, gender, or race? Identity-group politics, Gutmann shows, is not aberrant but inescapable in democracies because identity groups represent who people are, not only what they want--and who people are shapes what they demand from democratic politics. Rather than trying to abolish identity politics, Gutmann calls upon us to distinguish between those demands of identity

groups that aid and those that impede justice. Her book does justice to identity groups, while recognizing that they cannot be counted upon to do likewise to others. Clear, engaging, and forcefully argued, Amy Gutmann's *Identity in Democracy* provides the fractious world of multicultural and identity-group scholarship with a unifying work that will sustain it for years to come. *Modern Trends in Islam* - Hamilton Alexander Rosskeen Gibb 1975

Man of Contradictions - Ben Bland 2020-09-01

From a riverside shack to the presidential palace, Joko Widodo surged to the top of Indonesian politics on a wave of hope for change. However, six years into his presidency, the former furniture maker is struggling to deliver the reforms that Indonesia desperately needs. Despite promising to build Indonesia into an Asian powerhouse, Jokowi, as he is known, has faltered in the face of crises, from COVID-19 to an Islamist mass movement. *Man of Contradictions*, the first English-language biography of Jokowi, argues that the president embodies the fundamental contradictions of modern Indonesia. He is caught between democracy and authoritarianism, openness and protectionism, Islam and pluralism. Jokowi's incredible story shows what is possible in Indonesia – and it also shows the limits.

The Modern State - Robert Morrison MacIver 1926

The Social Contract - Jean-Jacques Rousseau 2017-07-31
In *The Social Contract*, Rousseau wrote one of the most influential studies ever made. It is as relevant today as when it was first published more than 250 years ago. Political society, Rousseau argued, required each individual to submit their personal desires to the 'general will'. At the same time, there was no 'divine right' of the monarchy to allow them to act as they pleased. Therefore, there must be a social contract between governor and governed - the only truly legitimate form of government. Rousseau's ideas influenced both the French and American Revolutions and created the foundations of the liberal democratic societies we live in today.

The Policy Process - Stuart S. Nagel 1999

Since the passage of national welfare reform legislation in the areas of welfare, employment, health and social services have been changing rapidly. This book discusses many of the different changes that these policies have gone through in recent years as well as the shift of responsibility toward state and local government for these changes. It is divided into: Part One: Federal, State and Local Relations; Part Two: Executive, Legislative and Judicial Relations; Part Three: The Group Struggle; Part Four: Public Values; Part Five: Democracy With Resistance.

Civil Islam - Robert W. Hefner 2011-05-21

Civil Islam tells the story of Islam and democratization

in Indonesia, the world's largest Muslim nation. Challenging stereotypes of Islam as antagonistic to democracy, this study of courage and reformation in the face of state terror suggests possibilities for democracy in the Muslim world and beyond. Democratic in the early 1950s and with rich precedents for tolerance and civility, Indonesia succumbed to violence. In 1965, Muslim parties were drawn into the slaughter of half a million communists. In the aftermath of this bloodshed, a "New Order" regime came to power, suppressing democratic forces and instituting dictatorial controls that held for decades. Yet from this maelstrom of violence, repressed by the state and denounced by conservative Muslims, an Islamic democracy movement emerged, strengthened, and played a central role in the 1998 overthrow of the Soeharto regime. In 1999, Muslim leader Abdurrahman Wahid was elected President of a reformist, civilian government. In explaining how this achievement was possible, Robert Hefner emphasizes the importance of civil institutions and public civility, but argues that neither democracy nor civil society is possible without a civilized state. Against portrayals of Islam as inherently antipluralist and undemocratic, he shows that Indonesia's Islamic reform movement repudiated the goal of an Islamic state, mobilized religiously ecumenical support, promoted women's rights, and championed democratic ideals. This broadly interdisciplinary and timely work heightens our awareness of democracy's necessary pluralism, and places Indonesia at the center of our efforts to understand what makes democracy work.

World Development Report 1978 - 1978

This first report deals with some of the major development issues confronting the developing countries and explores the relationship of the major trends in the international economy to them. It is designed to help clarify some of the linkages between the international economy and domestic strategies in the developing countries against the background of growing interdependence and increasing complexity in the world economy. It assesses the prospects for progress in accelerating growth and alleviating poverty, and

identifies some of the major policy issues which will affect these prospects.

Post-Soeharto Indonesia - Geoff Forrester 1999

Politicians, business people, academics, and international journalists ponder the country's economic and political prospects over the next decade. Their topics include the Habibie presidency, reforming business, the rupiah one year after its float, Islamic political parties, and the Chinese problem. The 17 offerings were part of the 1998 Update conference at the Australian National University, clearly held sometime after Soeharto was forced out of office in May.
