It will not waste your time. put up with me, the e-book will categorically announce you supplementary issue to read. Just invest tiny times to edit this on-line message mrcp paces ethics and communication skills master pass as skillfully as evaluation them wherever you are now.

Clinical Examination - Nicholas Joseph Talley 2014

Since 1988 this textbook has provided a clear and easily grasped explanation of the origins of physical signs when examining a patient, (both historically and physiologically). Much has been rewritten to reflect new thinking and new techniques.

MRCP Paces Ethics and Communication Skills - Iqbal Khan 2022-01-27

New primary care organisations are demanding personal and practice-based professional development plans to underpin revalidation of clinicians' professional registration or accreditation of practices. This workbook is unique in showing the reader how to combine and integrate

the two and matches national guidelines that explain how to apply guidance in real life for maximum effect. With action plans key facts and references it emphasises how to prioritise learning needs provides examples of plans and focuses on a variety of clinical and organisational topics. It will enable general practitioners nurses therapists and practice managers to design and apply personal development plans as individuals and as multidisciplinary practice teams.

Cumulated Index Medicus - 1993

Medical Histories for the MRCP and Final MB - Iqbal Khan 2016-07-06

Taking a patient's medical history is a vital skill often overlooked by junior doctors and medical students, leading to a worryingly high failure rate in the PACES and OSCE exams. Don't be caught out! This book has been specifically designed to give you invaluable guidance and practice for taking medical histories. It features 50 complete case studies, including referral letters, medical histories, suggested data gathering methods, points to consider, warning signs, management of uncomfortable topics and differential diagnosis. With a focus on the importance and benefits of role-play in revision, this concise and easy to read format provides the study aid for Membership of the Royal College of Physicians (MRCP) candidates sitting their Objective Structured Clinical Examination (OSCE) and Practical Assessment of Clinical Examination Skills (PACES) examinations. It is also of great benefit to undergraduates approaching their final year examinations.

Clinical Medicine for the MRCP PACES - Gautam Mehta 2010-07-15

A book of over 150 cases which mimic the style and approach of the MRCP PACES exam. The book will equip the candidate attempting to pass the MRCP examination, and will also provide an overview of evidence-based medicine for competency-based training.

Talley & O'Connor's Clinical Examination Essentials - eBook - Nicholas J. Talley 2019-09-15

Talley and O'Connor's Clinical Examination Essentials 5e provides an introduction to the skills required to successfully pass your clinical exams. It offers tips on how to impress your examiners and highlights key steps in taking a history and conducting a physical examination. With practice these will become second nature, even under the stress of exam conditions. We hope that Talley and O'Connor's Clinical Examination Essentials inspires you to master your clinical skills and embark on a successful medical career. If you are looking to further develop your history taking and examination techniques, Talley and O'Connor's Clinical Examination: A Systematic Guide to Physical Diagnosis provides greater detail (and more jokes). Talley & O'Connor exam hints present handy information which assists students and junior doctors in correctly diagnosing patients OSCE hints panel at the end of each chapter provides practice OSCE-style scenarios and answers to test all skills required for the OSCEs Question Boxes provide a checklist of questions which students as examiners should pose to patients to enable them to correctly identify the presenting symptoms required for an accurate diagnosis Includes an Enhanced eBook version with purchase. The enhanced eBook allows the end user to access all of the text, figures, and references from the book on a variety of devices. New introductory chapter on how to pass your clinical exams and the objective structured clinical examination

(OSCE) New clinical photographs Updated hint boxes and summaries

PACES for the MRCP - Tim Hall 2008

This title is written for MRCP candidates preparing for PACES exam in UK and rest of world. Clinical examinations in the OSCE style of marked stations are daunting for all students, whether undergraduates or MRCP candidates. The recent introduction of the 5-station PACES (Progressive Assessment of Clinical Examination Skills) exam inspired a great deal of apprehension, so the appearance of the first edition of Hall's PACES for MRCP was greatly welcomed by candidates and became an immediate success. This new edition builds on the book's reputation. It provides, in one colourful and attractive volume, complete coverage of all the most common medical cases that will be covered in PACES and similar exams. A one-volume text giving candidates complete preparation for the PACES exam within one portable volume 250 cases organised into the 5 stations of the PACES exam - respiratory and abdominal system, history taking, cardiovascular and nervous system, communication and ethics and skin, locomotion, eyes and endocrine systems Engaging question-and-answer approach at the end of each case - excellent preparation for the exam Boxed tips highlight vital information - helps identify what is most important to remember Produced in full colour throughout Colour coding for each station Many more illustrations added - now over 300 clinical photographs

and line drawings in colour Many more cases added, bringing the number up to 250 - 50 per station History-taking and communication skills stations

now revised so that they exactly mimic the requirements of the exam

Essential Guide to Educational Supervision in Postgraduate Medical Education - Nicola Cooper 2009-04-01

The world of postgraduate medical education is changing, and educational supervisors need the knowledge and skills to be able to do their job effectively. Many of those who want to do this job well feel unprepared for the task. Essential Guide to Educational Supervision is a handbook for educational supervisors everywhere. The topics covered are generic to medical education, whatever the specialty. Although the focus is on postgraduate medical education, many of the topics in this book are also applicable to undergraduates. Essential Guide to Educational Supervision is written for: Consultants and General Practitioners who work with trainees Educational supervisors People who organise postgraduate training programmes Written by experts in their field, each chapter gives an overview of key topics in educational supervision with references and further resources. The book provides evidence and theory when applicable, but is deliberately practical, with case studies and tips for good practice as well.

Clinical Medicine for the MRCP PACES - Gautam Mehta 2010-07-15

A book of 75 cases which mimic the style and approach of the MRCP PACES exam. The book will equip the candidate attempting the MRCP PACES examination, but will also provide an overview of evidence-based medicine for competency-based training.

Clinical Pharmacy and Therapeutics - Roger Walker 2003

A practical guide for the treatment of common diseases, this updated edition includes the very latest information. It covers the treatment of disease by drug therapy and uses case studies to illustrate the application of the principles discussed

An Aid to the MRCP PACES - Dev Banerjee 2009-04-13

The forerunner to this book - Ryder, Mir & Freeman's 'An Aid to the MRCP Short Cases' - rapidly established itself as a classic and has sold over 30,000 copies. The new Progressive Assessment of Clinical Examination Skills (PACES) has replaced the old short case exam and, as a result, the authors have revised, reworked and extended their highly successful text so that it continues to address the study needs of candidates. This new revision aid is now presented in two volumes: An Aid to the MRCP PACES Volume 1: Stations 1, 3 and 5 An Aid to the MRCP PACES Volume 2: Stations 2 and 4 This Volume covers Station 2 'History Taking' and Station 4 'Communication Skills'. In the 'History Taking' section at least 50 examples of each type of question and case are included, together with

scenarios with simulated patients. The focus of the book is very much on the examiners' expectations so that candidates have a true picture of the areas on which they are being tested. Station 4 'Communication Skills' also covers the ethical issues in the doctor-patient relationship, such as managing organ transplantation, consenting for hospital post-mortem, etc. Also included in this Volume is the 'Experiences and Anecdotes' chapter providing real quotes from both candidates and examiners - this helps the candidate to avoid the more common pitfalls of the exam.

Essential OSCE Topics for Medical and Surgical Finals - Kaji Sritharan 2007-08-20

Objective Structured Clinical Examinations (OSCEs) are commonly encountered at all levels of medical school including the final MBBS examination. OSCEs also play an important role at postgraduate level and are used to assess competency in the Foundation Years. One of the fundamental requirements of passing the OSCE is an understanding of the standa

The MRCP PACES Handbook - Saira Ghafur 2017-05-18

MRCP PACES is a challenging examination requiring in-depth clinical knowledge, excellent clinical skills and the ability to present each case concisely and coherently. This revision guide helps candidates achieve these aims; it is compact enough for bedside use and sufficiently

comprehensive for self-study. The new edition follows the structure of the current PACES exam and has an expanded section on Station 5. As well as a wealth of up-to-date questions for practice, it includes extensive new clinical information on new therapies and details of the latest investigations and management options. Each chapter has been reviewed by senior clinicians within the specialty.

- Presents all seven stations in one book
- Provides practical hints and tips for success at each station
- Presents much more comprehensive information in a compact and accessible format than other books
- Provides evidence-based information, guidelines and questions mapping onto the latest examination format. This book teaches the candidate not only how to pass the PACES exam, leading the reader through each case and exactly what is expected of them, but also provides a succinct yet detailed clinical handbook for support on medical wards.

Cases for PACES - Stephen Hoole 2010-02-02

Cases for PACES provides a concise study aid to Part II of the MRCP examination; the Practical Assessment of Clinical Examination Skills or PACES. The new edition of this very popular study guide has been completely updated, and now includes scenarios for Station 5, introduced in October 2009. Featuring a 'case study' format that matches the style of the exam, it includes all the essential information - perfect for on-the-ward

revision and study. Written by authors who remember their own PACES examination, their experience in learning and teaching PACES is condensed to provide exactly what you need to know to pass. With its informal style, Cases for PACES is also ideal for self-directed learning in groups, and will help you hone your clinical skills and boost your confidence in the run-up to the examination. For more titles to help you prepare for MRCP examinations go to <http://www.wileymedicalstudent.com/> www.wileymedicaleducation.com/a

Essential Revision Notes in Paediatrics for the MRCPCH - Mark Beattie 2006

Suitable for candidates preparing for the MRCPCH exam, this title includes 24 specialty-based chapters that provide concise information in an accessible format.

A Step By Step Guide To Mastering The OSCE - Medical Student -

[Dermatology Postgraduate MCQs and Revision Notes](#) - James Halpern 2021-09-02

Postgraduates studying dermatology can face a lack of appropriate revision aids: reference books are often too exhaustive or out-of-date, while undergraduate and introductory texts lack the necessary detail and

depth. This book is specifically designed for postgraduate examinations, and is the perfect accompaniment for the diploma in dermatology.

End-of-Life Communication in the ICU - David W. Crippen 2007-11-27

Talking to patients and their families about end-of-life issues can be difficult and stressful. This book looks at ways different cultures view death and then further explores how health care providers around the world communicate about such sensitive issues as withholding or withdrawing life support and discussing options when the outcome is uncertain. By offering a better understanding of cultural differences in attitudes about death and methods of communications about end-of-life issues, the coverage in this important book helps prepare healthcare practitioners to be better communicators – both within and outside of their own cultures.

Pharmaceutical Medicine - Adrian Kilcoyne 2013-05-23

The breadth of the pharmaceutical medicine can be daunting, but this book is designed to navigate a path through the speciality. Providing a broad overview of all topics relevant to the discipline of pharmaceutical medicine, it gives you the facts fast, in a user-friendly format, without having to dive through page upon page of dense text. With 136 chapters spread across 8 sections, the text offers a thorough grounding in issues ranging from medicines regulation to clinical trial design and data management. This makes it a useful revision aid for exams as well as

giving you a taster of areas of pharmaceutical medicine adjacent to your current role. For healthcare professionals already working in the field, this book offers a guiding hand in difficult situations as well as supplying rapid access to the latest recommendations and guidelines. Written by authors with experience in the industry and drug regulation, this comprehensive and authoritative guide provides a shoulder to lean on throughout your pharmaceutical career.

International Public Health: Diseases, Programs, Systems and Policies - Michael Merson 2006

In this text for graduate students in various disciplines who are studying international public health, the author focuses on conditions in low- and middle-income countries, occasionally making reference to high-income countries. He suggests approaches for fostering public health, and discusses future challenges for health promotion and disease prevention around the world. The text can also be used as a reference by those working in government agencies, international health and development agencies, and NGOs.

An Aid to the MRCP PACES, Volume 1 - Robert E. J. Ryder 2012-10-01

This new edition of *An Aid to the MRCP Paces Volume 1: Stations 1 and 3* has been fully revised and updated, and reflects feedback from PACES candidates as to which cases frequently appear in each station. The

hundreds of cases have been written in accordance with the latest examining and marking schemes used for the exam and, together with exam hints, tips, routines and clinical checklists, provide an invaluable training and revision aid for all MRCP PACES candidates.

Rapid Review of Clinical Medicine for MRCP Part 1 - Rashmi Kaushal
2019-07-17

Following the super-success of their MRCP Part 2 volume, the authors adapt their special teaching skills to the needs of MRCP Part 1 and similar exams in internal medicine. The book consists of 360 'Best of 5' multiple choice questions (1,800 clinical decision) reflecting the latest exam format. It covers all areas of clinical medicine needed by ex

The Pocketbook for PACES - Rupa Bessant 2012-05-31

This book provides an easily portable yet comprehensive guide to the PACES examination. It includes all of the most relevant clinical information for the PACES exam supplemented by tips supplied by the highly experienced chapter authors. The main aim of the book is to consolidate candidates' theoretical knowledge and help them apply it to the clinical examination scenario. In addition the book forms an excellent pocket reference for trainees in acute medicine, accident and emergency medicine, anaesthetics and critical care and general practice.

Clinical Problem Solving in Dentistry E-Book - Avijit Banerjee 2010-01-25

The latest edition of this popular book continues to provide a highly visual step-by-step guide to the practical management of a wide variety of presentations seen in clinical dental practice. Containing over 350 high-quality photographs, line artworks and tables, *Clinical Problem Solving in Dentistry* is written in an easy-to read 'how to' style and contains a large number of real life clinical cases carefully presented to maximise learning outcomes for the reader. Covering all core aspects of practice, *Clinical Problem Solving in Dentistry*, 3rd edition will be of value to all general dental practitioners, both qualified and in training. More than 350 colour illustrations, artworks and tables present clinical, diagnostic and practical information in an easy-to-follow manner. Designed to help the reader reorganise their knowledge into a clinically useful format. Explores treatment alternatives and evaluates their advantages and disadvantages. Integrates material from all the dental specialties in order to cover the full range of problems which will be seen in practice. Practical approach to the subject makes learning especially easy. Includes ten completely new problems, making the book almost twice as long as the first edition! All the chapters have been completely revised to account for new national guidelines, changes in legislation and advances in treatment. Additional topics include Down's syndrome, bisphosphonate-induced osteonecrosis, headache and child protection.

Clinical Skills for OSCEs - Neel L. Burton 2006

A comprehensive guide to basic clinical skills available. A learning and revision tool for all exam candidates preparing for their OSCE and PLAB exams.

Cases for Paces - Stephen Hoole 2024-09-30

Comprehensive Study Resource That Helps Readers Pass the PACES Exam Concise and ideal for quick reference, *Cases for PACES* is the perfect resource for MRCP PACES preparation in the run-up to the examination. Its full-colour two-page case study format matches the style of the exam and lets you quickly read up on all the most common cases to ensure you will be prepared. The authors' experience in learning and teaching PACES is condensed to provide exactly what is needed to pass. The informal writing style means *Cases for PACES* is also ideal for self-directed learning in groups. The book will help readers hone their clinical skills and boost their confidence levels throughout their revision sessions. Study resources covered in the book include: Information pertaining to all five stations: abdominal and respiratory system examination, history-taking skills, cardiovascular system examination, communication skills and ethics, and integrated clinical assessment New cases on all the most common topics on the exam A new format to match the new exam style which was introduced in For MRCP candidates and final-year medical students,

Cases for PACES is an accessible learning resource to master all the topics included in the PACES exam.

Oxford Textbook of Palliative Medicine - Nathan I. Cherny 2015

Emphasising the multi-disciplinary nature of palliative care the fourth edition of this text also looks at the individual professional roles that contribute to the best-quality palliative care.

Medicine for MRCP - Rupa Bessant 2020-08-17

Medicine for MRCP provides a comprehensive review of the material that you need to pass the MRCP Parts 1 and 2 written papers. The twenty-seven chapters mapped out to the RCP syllabus, cover all areas from molecular medicine and genetics, through to medical law and ethics. Written by specialist contributors and educational experts, the content is carefully crafted to build your understanding for both papers. Each chapter begins with the basic science required for Part 1, before covering clinical medicine for Part 1, Part 2 and the PACES examinations. To ensure effective revision, material is presented in short sections with bullet lists, tables, and boxes. Over 150 drawings and photos illustrate key principles and clinical topics making them easier to retain. References to evidence-based protocols and directions to further reading allow for deeper understanding. Candidates can review their progress via the 180 end-of chapter self-assessment questions. Drawing on the authors' expertise,

Medicine for MRCP is the ideal companion for the MRCP as well as a useful reference guide for practicing medical doctors.

Health Professionals for a New Century - 2011

One hundred years ago a series of seminal documents, starting with the Flexner Report of 1910, sparked an enormous burst of energy to harness the power of science to transform higher education in health. Professional education, however, has not been able to keep pace with the challenges of the 21st century. A new generation of reforms is needed to meet the demands of health systems in an interdependent world. The report of the Commission on the Education of Health Professionals for the 21st Century, a global independent initiative consisting of 20 leaders from diverse disciplinary backgrounds and institutional affiliations, articulates a fresh vision and recommends renewed actions. Building on a rich legacy of educational reforms during the past century, the Commission's findings and recommendations adopt a global and multi-professional perspective using a systems approach to analyze education and health, with a focus on institutional and instructional reforms.

MRCPCH Clinical - Simon J. Bedwani 2011

Updated focusing on the learning needs of the new format MRCPCH Clinical examination. To maximise revision time, 3 parts represent the Clinical exam stations: Part 1 History Taking & Management Planning;

Part 2 Communication Skills; Part 3 Clinical Stations. Written by paediatricians with experience of teaching and helping to run previous exams.

Mastering Emergency Medicine - Chetan Trivedy 2009-11-27

Mastering Emergency Medicine is a concise, revision-focused textbook that covers everything that candidates need to know in order to pass the College of Emergency Medicine's (CEM) membership examination (MCEM) to enter training, and to the pass fellowship examination (FCEM) to complete the Certificate of Specialist Training. With over 100 OSCE scenarios designed to stimulate everyday emergency department clinical encounters, Mastering Emergency Medicine covers all the key areas of the CEM syllabus, including: clinical examinations and practical skills, communication skills, teaching and management. This book takes a practical approach to the subject - core facts are presented and common scenarios are explored using an OSCE style, as used in the Part C MCEM and the FCEM examinations - which makes it an invaluable blueprint for management of cases. Closely linked to the current CEM syllabus, each chapter comprises three parts: Core topics that supplement revision for Part A and B. Clinical scenarios, including data and relevant practical skills that can be used to prepare for Parts B and C. Mock 'Scoring Scenarios' that give specific guidance on how to perform in OSCEs. Mastering

Emergency Medicine is a highly detailed revision guide for the OSCE examinations and an essential study guide for all those who are preparing for the MCEM or FCEM examinations. It will also be useful to those who are wishing to pursue a career in Acute Medicine.

Learning Geriatric Medicine - Regina Roller-Wirnsberger 2018-03-20

This textbook presents hands-on training material for medical students. The style reflects the need for practice-based teaching with a modern edge in daily clinical routine; accordingly, it also employs online material and pocket cards. Each chapter begins with specific learning objectives, which are cross-referenced with the European curriculum for undergraduate medical education released by the European Union of Medical Specialists (UEMS) together with the European Union Geriatric Medicine Society (EUGMS), as well as the minimum geriatric competences for medical students established by the American Geriatrics Society (AGS). World-renowned European experts in practicing and teaching the interdisciplinary field of Geriatrics contributed to this work, with the aim of offering the new generation of health professionals a global perspective on one of the greatest public health challenges of our time: the management of the steadily increasing number of older, multimorbid, and vulnerable persons. The major strength of this book – published under the auspices of the EUGMS – is its pragmatic, goal-oriented approach, which makes it

suitable for bedside learning and patient-centered medicine; further, all of the chapters are firmly based on the pillars of the ageing process in all of its biological aspects, helping readers understand the pathophysiology of and rationale behind interventions for the main geriatric syndromes and disorders.

MRCP Paces Ethics and Communication Skills - Iqbal Khan 2006

This book provides rapid revision for MRCP candidates preparing for the commonly overlooked 'Ethics and Communication Skills' section of the Practical Assessment of Clinical Examination Skills (PACES) exam. It assists you in developing an understanding of ethical issues and enhances your ability to communicate effectively with patients, their relatives and your colleagues. MRCP PACES Ethics and Communication Skills is concise and well presented for easy study and reference - perfect for breezing through revision.

Public Health Ethics: Cases Spanning the Globe - Drue H. Barrett
2016-04-20

This Open Access book highlights the ethical issues and dilemmas that arise in the practice of public health. It is also a tool to support instruction, debate, and dialogue regarding public health ethics. Although the practice of public health has always included consideration of ethical issues, the field of public health ethics as a discipline is a relatively new and emerging

area. There are few practical training resources for public health practitioners, especially resources which include discussion of realistic cases which are likely to arise in the practice of public health. This work discusses these issues on a case to case basis and helps create awareness and understanding of the ethics of public health care. The main audience for the casebook is public health practitioners, including front-line workers, field epidemiology trainers and trainees, managers, planners, and decision makers who have an interest in learning about how to integrate ethical analysis into their day to day public health practice. The casebook is also useful to schools of public health and public health students as well as to academic ethicists who can use the book to teach public health ethics and distinguish it from clinical and research ethics.

Mayo Clinic Internal Medicine Board Review Questions and Answers -

Robert D. Ficalora 2013-08-15

Companion volume to: Mayo Clinic internal medicine board review. 10th ed. c2013.

MCQs in Neurology and Neurosurgery for Medical Students - Ibrahim

Natalwala 2022-02-15

Neurology and neurosurgery are notoriously daunting for the medical student. As each of the basic concepts are mastered, new, more detailed information needs to be mastered. It is a fascinating but often

overwhelming specialty which is required for everyday practice right through a medical career, from junior doctor to senior consultant. This colour MCQ revision aid covers the most important basic elements from neuroanatomy, neurophysiology and neuroradiology through to strokes, central nervous system lesions and malignancies. It is ideal as a final guide to test knowledge and examination readiness. The themed presentation encourages quick, focused study and detailed answers aid comprehension and encourage familiarity with each topic with essential diagrams, colour images and sample MRIs.

Handbook of Clinical Obstetrics - E. Albert Reece, MD, PhD, MBA

2008-04-15

The second edition of this quick reference handbook for obstetricians and gynecologists and primary care physicians is designed to complement the parent textbook Clinical Obstetrics: The Fetus & Mother The third edition of Clinical Obstetrics: The Fetus & Mother is unique in that it gives in-depth attention to the two patients – fetus and mother, with special coverage of each patient. Clinical Obstetrics thoroughly reviews the biology, pathology, and clinical management of disorders affecting both the fetus and the mother. Clinical Obstetrics: The Fetus & Mother - Handbook provides the practising physician with succinct, clinically focused information in an easily retrievable format that facilitates diagnosis,

evaluation, and treatment. When you need fast answers to specific questions, you can turn with confidence to this streamlined, updated reference.

An Aid to the MRCP PACES - Robert E. J. Ryder 2003-10-20

The forerunner to this book - Ryder, Mir & Freeman's 'An Aid to the MRCP Short Cases' - rapidly established itself as a classic and has sold over 30,000 copies. The new Progressive Assessment of Clinical Examination Skills (PACES) has replaced the old short case exam and, as a result, the authors have revised, reworked and extended their highly successful text so that it continues to address the study needs of candidates. This new revision aid is now presented in two volumes: An Aid to the MRCP PACES Volume 1: Stations 1, 3 and 5 An Aid to the MRCP PACES Volume 2: Stations 2 and 4 This Volume covers Station 1 'Respiratory and Abdominal Systems', Station 3 'Cardiovascular and Neurological Systems' and Station 5 'Skin, Locomoter, Eyes and the Endocrine System'. The 200 cases have been written in accordance with the new examining and marking schemes used for the exam. They provide an invaluable training and revision aid for all candidates.

OSCEs for Medical Finals - Hamed Khan 2013-01-22

OSCEs for Medical Finals has been written by doctors from a variety of specialties with extensive experience of medical education and of

organising and examining OSCEs. The book and website package consists of the most common OSCE scenarios encountered in medical finals, together with checklists, similar to OSCE mark schemes, that cover all of the key learning points students need to succeed. Each topic checklist contains comprehensive exam-focussed advice on how to maximise performance together with a range of 'insider's tips' on OSCE strategy and common OSCE pitfalls. Designed to provide enough coverage for those students who want to gain as many marks as possible in their OSCEs, and not just a book which will ensure students 'scrape a pass', the book is fully supported by a companion website at www.wiley.com/go/khan/osces, containing: OSCE checklists from the book A survey of doctors and students of which OSCEs have a high chance of appearing in finals in each UK medical school

How to Practice Academic Medicine and Publish from Developing Countries? - Samiran Nundy 2021-10-23

This is an open access book. The book provides an overview of the state of research in developing countries – Africa, Latin America, and Asia (especially India) and why research and publications are important in these regions. It addresses budding but struggling academics in low and middle-income countries. It is written mainly by senior colleagues who have experienced and recognized the challenges with design, documentation,

and publication of health research in the developing world. The book includes short chapters providing insight into planning research at the undergraduate or postgraduate level, issues related to research ethics, and conduct of clinical trials. It also serves as a guide towards establishing a research question and research methodology. It covers important

concepts such as writing a paper, the submission process, dealing with rejection and revisions, and covers additional topics such as planning lectures and presentations. The book will be useful for graduates, postgraduates, teachers as well as physicians and practitioners all over the developing world who are interested in academic medicine and wish to do medical research.
