The Commanding Heights - Daniel Yergin 2008-12-26

The most powerful force in the world economy today is the redefinition of the relationship between state and marketplace - a process that goes by the name of privatization though this term is inadequate to express its far-reaching changes. We are moving from an era in which governments sought to seize and control the 'commanding heights' of the economy to an era in which the idea of free markets is capturing the commanding heights of world economic thinking. Basic views of how society ought to be organized are undergoing rapid change, trillions of dollars are changing hands and so is fundamental political power. Great new wealth is being

created - as are huge opportunities and huge risks. Taking a worldwide perspective, including Britain, where the process began with Mrs Thatcher, Europe and the former USSR, China, Latin America and the US, **THE COMMANDING HEIGHTS** shows how a revolution in ideas is transforming the world economy - why it is happening, how it can go wrong and what it will mean for the global economy going into the twenty-first century.

Better India - N. R. Murthy 2010

At a time when India is battling huge problems of its own and is struggling to break free from the shackles of poor governance, A Better India comes as a remarkably well-worded book telling us the simple things that need to be done right. Written by N. R. Narayana Murthy, this book offers some simple solutions to seemingly complex problems. In India, there lies a great disparity in the distribution of wealth. There is a great divide that exists between the poor and the rich and the facilities available to both of them. The challenge that lies in front of the administration is to bridge that divide. So the pertinent question relates to how that divide is going to be bridged. The book talks about the ways to fulfill Gandhi's dream where the fruits of development would be available to every man, woman and child. The proverb of Sarve Jana Sukhino Bhavantu' or happiness to every man, is a long cherished dream of our founding fathers. N. R. Narayana Murthy offers a fairly simple solution to these problems in his book A Better India. He argues very articulately in favor of strong values and good leadership in governance. Drawing excerpts from the path-breaking Infosys story which led to him run a successful business, the author lays down the fundamental rules for development of the masses.

tells them here in her characteristically clear-eyed, warm-hearted way. MAPPING LOVE - Ashwini Iyer 2021-05-05

Here I am, living my life looking at the rear-view mirror, driving to the end of the beginning of where I started. My body still hurts. It has been some time since Oorja Chaturvedi came home; but the wounds she suffered, at the hands of the very people who so aptly named her, cut deep. Her relationship with her father was barely strung together with a few words. But when her mother dies, the woman whose nagging love was both her comfort and her secret hiding place from the world, new grief melds with old bitterness.

Reeling from the loss, Oorja decides to come back to India, only to find her estranged father missing. Her search leads her to her grandfather, a man who had lived all his life among books and forest, withering away in his house. As she tries to grapple with her grief for a dying grandfather, she unexpectedly finds love and solace in the arms of a man who inherits her grandfather's estate. But before she can decide what Anang and her own future together hold, Oorja must first untangle the secrets of their shared past. A quiet gut-punch of a debut, acclaimed filmmaker Ashwini Iyer Tiwary's novel, Mapping Love is heartbreakingly brave and equally delicate. It is a story that digs its claws into you and doesn't let go, long after you've finished it.
