Residential Wiring - Ray C. Mullin 2001-12
Residential Wiring Laboratory Manual provides students and professional electricians-in-training with realistic, hands-on opportunities to develop their skills in applying regulations concerning securing conductors, working with circuits that employ three- and four-way switches, performing box sizing calculations, and using residential schematic symbols. Readers are required to analyze each lab assignment carefully in order to derive their own floor plan and electrical connection diagrams. Instructors or mentors are then

called upon to verify the electrical connections, providing learners with immediate positive feedback or additional guidance as needed on a one-on-one basis. Lastly, because readers are required to perform key tasks repeatedly, the use of this lab manual enables them to progress through the most critical phase of the electrical wiring learning curve in a safe and controlled manner.

Conspiracy of Credit - Corey P Smith 2013-11-01
Conspiracy of Credit is a must read. Containing the most raw and comprehensive information you will ever find on credit, this book provides shocking answers to the

questions of why the credit bureaus want you to have bad credit and why credit is assumedly for poor people. Conspiracy of Credit explains why identity theft is nothing more than a new product created by the credit bureaus and banks to make money. Further, this book tactfully breaks down the reason behind retail and grocery store loyalty cards as well as the use of re-identification software. The speed of light money age is here, and never before has any book provided a blueprint for the future of credit and banking.
