Responses to Language Endangerment - Elena Mihás 2013-11-15

This volume further complicates and advances the contemporary perspective on language endangerment by examining the outcomes of the most commonly cited responses to language endangerment, i.e. language documentation, language revitalization, and training. The present collection takes stock of many complex and pressing issues, such as the assessment of the degree of language endangerment, the contribution of linguistic scholarship to language revitalization programs, the creation of successful language reclamation programs, the emergence of languages that arise as a result of revitalization efforts after interrupted transmission, the ethics of fieldwork, and the training of field linguists and language educators. The volume's case studies provide detailed personal accounts of fieldworkers and language activists who are grappling with issues of language documentation and revitalization in the concrete physical and socio-cultural settings of native speaker communities in different regions of the world.

Hola Papi - John Paul Brammer 2021-06-08

From popular LGBTQ advice columnist and writer John Paul Brammer comes a hilarious, heartwarming memoir-in-essays chronicling his journey growing up as a queer, mixed-race kid in America's heartland to becoming the "Chicano Carrie Bradshaw" of his generation. "A wise and charming book. [Brammer] is such a good writer, and so well rounded."—David Sedaris "[Brammer] is both kind and piercingly funny, often in the same sentence.... Personal and affecting.... iHola Papi! is a master class of tone and tenderness, as Brammer balances self-compassion with humor." —THE NEW YORK TIMES BOOK REVIEW (EDITORS' CHOICE) "[iHola Papi! should be] required reading... [Brammer's] writing is incredibly funny, kind, and gracious to his readers, and deeply vulnerable in a way that makes it feel as if he's talking to only you." —LOS ANGELES TIMES The first time someone called John Paul (JP) Brammer "Papi" was on the popular gay hookup app Grindr. At first, it was flattering; JP took this as white-guy speak for "hey, handsome." Who doesn't want to be called handsome? But then it happened again and again...and again, leaving JP wondering: Who the hell is Papi? What started as a racialized moniker given to him on a hookup app soon became the inspiration for his now wildly popular advice column "iHola Papi!," launching his career as the Cheryl Strayed for young queer people everywhere—and some straight people too. JP had his doubts at first—what advice could he really offer while he himself stumbled through his early 20s? Sometimes the

best advice to dole out comes from looking within, which is what JP has done in his column and book—and readers have flocked to him for honest, heartfelt wisdom, and of course, a few laughs. In *iHola Papi!*, JP shares his story of growing up biracial and in the closet in America's heartland, while attempting to answer some of life's toughest questions: How do I let go of the past? How do I become the person I want to be? Is there such a thing as being too gay? Should I hook up with my grade school bully now that he's out of the closet? Questions we've all asked ourselves, surely. *iHola Papi!* is "a warm, witty compendium of hard-won life lessons," (*Harper's Bazaar*) for anyone—gay, straight, and everything in between—who has ever taken stock of their unique place in the world. "Readers are likely to become addicted to these stories; they're that good... Brammer comes to know himself very well, and readers will be delighted to make his acquaintance, too," (*Booklist*, starred review).

Dieter Rams: As Little Design as Possible - Sophie Lovell 2011-06-22

Dieter Rams is one of the most influential product designers of the twentieth century. Even if you don't immediately recognize his name, you have almost certainly used one of the radios, clocks, lighters, juicers, shelves or hundreds of other products he designed. He is famous not only for this vast array of well-formed products, but for his remarkably prescient ideas about the correct function of design in the messy, out-of-control world we inhabit today. These ideas are summed up in his 'ten principles' of good design: good design is innovative, useful, and aesthetic. Good design makes a product easily understood. Good design is unobtrusive, honest, durable, thorough, and concerned with the environment. Most of all, good design is as little design as possible. In that spirit, this monograph is as little book as possible. It is a clear, comprehensive and beautiful presentation of Dieter Rams' life and his work. It is a must-have book for anyone interested in Rams' work, his legacy, and his ideas about how to live.

Handbook of African Medicinal Plants, Second Edition - Maurice M. Iwu 2014-02-04

With over 50,000 distinct species in sub-Saharan Africa alone, the African continent is endowed with an enormous wealth of plant resources. While more than 25 percent of known species have been used for several centuries in traditional African medicine for the prevention and treatment of diseases, Africa remains a minor player in the global natural products market largely due to lack of practical information. This updated and expanded second edition of the *Handbook of African Medicinal Plants* provides a comprehensive review of more than 2,000 species of plants employed in indigenous African medicine, with full-color photographs and references from over 1,100 publications. The first part of the book contains a catalog of the plants used as ingredients for the preparation of traditional remedies, including their medicinal uses and the parts of the plant used. This is followed by a pharmacognostical profile of 170 of the major herbs, with a brief description of the diagnostic features of the leaves, flowers, and fruits and monographs with botanical names, common names, synonyms, African names, habitat and distribution, ethnomedicinal uses, chemical constituents, and reported pharmacological activity. The second part of the book provides an introduction to African traditional medicine, outlining African cosmology and beliefs as they relate to healing and the use of herbs, health foods, and medicinal plants. This book presents scientific

documentation of the correlation between the observed folk use and demonstrable biological activity, as well as the characterized constituents of the plants.

Black Beauty - Anna Sewell 2016-01-01

Follow the adventures of a young horse in Victorian England, beginning with his idyllic upbringing with his mother on a farm, to his short career as a carriage horse for a wealthy family, to his tough and often abusive work as a cab horse. From the kindest to the cruelest of owners, Black Beauty always tries to listen to his mother's advice and do his work with a good will. This book was hugely influential in cultivating public interest in making sure horses were treated without cruelty. An ardent advocate for animal welfare, English author Anna Sewell published her first and only novel in 1877, five months before her death. This unabridged version was taken from the 1911 American copyright edition.

English for Academic Purposes in Neoliberal Universities: A Critical Grounded Theory - Gregory Hadley 2014-10-28

The critical grounded theory presented in this book offers valuable insights on the social processes and strategies used by Blended English for Academic Purposes Professionals (BLEAPs) at higher education institutions, as they struggle to negotiate the challenges arising from a new focus on recruiting international students and hunting for other resources for their universities. Drawing from in-depth interviews with numerous research participants at over eleven higher educational institutions in the UK, Japan and the United States, this work focuses on those who have been precariously placed as middle manager at many EAP and TESOL programs. Lacking in both positional power or permanence, these 'BLEAPs' are faced with many challenges as they seek to understand their changing role in higher educational institutions, and engage in strategies that can help them gain greater control over issues in their profession.

A Visual Inventory - John Pawson 2012-03-05

John Pawson's career as an architect and designer spans a variety of sizes and programs: from bowls to bridges, and monasteries to Calvin Klein stores. In addition to his acclaimed design work, he is the author of Phaidon's successful *Minimum*, a book that paired images and captions to illustrate the notion of simplicity in a beautiful and inspirational manner. *Visual Inventory* presents some of the images from Pawson's personal collection of over 200,000 digital snapshots. The book opens with an essay explaining the importance of photography as a tool for Pawson's work, and the images are set one per page with illuminating captions. Covering a huge range of subjects, the photographs form a remarkable body of reference material. Some of the images illustrate a particular idea out form, material or space; others reflect the author's interest in returning repeatedly to certain subjects, capturing the changes brought by different weather, light conditions, seasons and patterns of use. Each image has been chosen for the book because it is useful, offering a lesson in visual thinking. None of the photographs in the book have been cropped or altered; it is the selection, arrangement and captioning of the images that make this book unique, valuable and attractive to any architect, designer, artist or student who wants to see the world around

them with a stronger eye.

The Case for Marriage - Linda Waite 2002-03-05

A groundbreaking look at marriage, one of the most basic and universal of all human institutions, which reveals the emotional, physical, economic, and sexual benefits that marriage brings to individuals and society as a whole. *The Case for Marriage* is a critically important intervention in the national debate about the future of family. Based on the authoritative research of family sociologist Linda J. Waite, journalist Maggie Gallagher, and a number of other scholars, this book's findings dramatically contradict the anti-marriage myths that have become the common sense of most Americans. Today a broad consensus holds that marriage is a bad deal for women, that divorce is better for children when parents are unhappy, and that marriage is essentially a private choice, not a public institution. Waite and Gallagher flatly contradict these assumptions, arguing instead that by a broad range of indices, marriage is actually better for you than being single or divorced- physically, materially, and spiritually. They contend that married people live longer, have better health, earn more money, accumulate more wealth, feel more fulfillment in their lives, enjoy more satisfying sexual relationships, and have happier and more successful children than those who remain single, cohabit, or get divorced. *The Case for Marriage* combines clearheaded analysis, penetrating cultural criticism, and practical advice for strengthening the institution of marriage, and provides clear, essential guidelines for reestablishing marriage as the foundation for a healthy and happy society. "A compelling defense of a sacred union. *The Case for Marriage* is well written and well argued, empirically rigorous and learned, practical and commonsensical." -- William J. Bennett, author of *The Book of Virtues* "Makes the absolutely critical point that marriage has been misrepresented and misunderstood." -- *The Wall Street Journal* www.broadwaybooks.com

Tongan Dictionary - Clerk Maxwell Churchward 1959

The Morality of Mrs. Dulka - Gabriela Zapolska 2007

Born during the tumultuous one-hundred-year division of Poland by Austria, Prussia, and Russia, Gabriela Zapolska (1857 1921) was an actor, journalist, and playwright who wrote over thirty plays in her lifetime. In her best-known work, "The Morality of Mrs. Dulka," a tyrannical landlady harasses, exploits, and even prostitutes the eccentric cast of tenants who occupy her stone tenement building. The petty-bourgeois tragicomedy that ensues is regarded as a landmark of early modernist Polish drama. A cross between Bertolt Brecht's *Mother Courage* and Patricia Routledge's *Hyacinth Bucket*, Mrs. Dulka keeps her purse strings tightly drawn and shows no compassion towards the sad plights of her lodgers until she is forced to come to terms with her own possessive love for her son. Now available for the first time in an English-language edition that firmly situates the play in the context of its performance history, Zapolska's incisive play is an uncompromising look at gender, class, and relationships in fin-de-siecle Poland. In her introduction to Zapolska's seminal play, Murjas discusses the many intriguing challenges involved in its cultural transference, combining the perspective of translator with that of theatre practitioner. This book is a rare treat in a much neglected area of modern scholarship. Elwira Grossman, University of Glasgow"

Cyberpragmatics - Francisco Yus 2011-08-22

Cyberpragmatics is an analysis of Internet-mediated communication from the perspective of cognitive pragmatics. It addresses a whole range of interactions that can be found on the Net: the web page, chat rooms, instant messaging, social networking sites, 3D virtual worlds, blogs, videoconference, e-mail, Twitter, etc. Of special interest is the role of intentions and the quality of interpretations when these Internet-mediated interactions take place, which is often affected by the textual properties of the medium. The book also analyses the pragmatic implications of transferring offline discourses (e.g. printed paper, advertisements) to the screen-framed space of the Net. And although the main framework is cognitive pragmatics, the book also draws from other theories and models in order to build up a better picture of what really happens when people communicate on the Net. This book will interest analysts doing research on computer-mediated communication, university students and researchers undergoing post-graduate courses or writing a PhD thesis. Connections between self-processes and psychological problems are also addressed. New to This Edition *Incorporates significant theoretical and empirical advances. *Nine entirely new chapters. *Coverage of the social and cognitive neuroscience of self-processes; self-regulation and health; self and emotion; and hypoegeic states, such as mindfulness.

Globalization and Language Teaching - David Block 2002-06-01

This book considers the issues globalization raises for second language learning and teaching. Block and Cameron's collection shows how, in an economy based on services and information, the linguistic skills of workers becomes increasingly important. New technologies make possible new kinds of language teaching, and language becomes an economic commodity with a value in the global marketplace. This has implications for how and why people learn languages, and for which languages they learn. Drawing together the various strands of the globalization debate, this rich and varied collection of contributions explores issues such as: *The commodification of language(s) and language skills *The use of new media and new technologies in language learning and teaching *The effects of globalization on the language teaching industry *New forms of power and resistance.

Critical Pedagogy in Hong Kong - Carlos Soto 2019-09-06

This book chronicles the author's application of critical pedagogy in Hong Kong secondary schools serving students from working-class families of South Asian heritage, so-called 'ethnic minorities' in the local context. Soto used concepts such as banking pedagogy, generative themes, liberatory dialogue, and transformative resistance, to first understand students' school, online, and community experiences, and then to reshape his teaching of English and humanities subjects to address the students' academic, social, and emotional needs. This critical ethnography is set against educational reforms in Hong Kong, which re-orientated schools towards developing a knowledge-economy workforce, increased privatization and competition in the school system, aimed to build national identification with China, and sought to address growing inequality in a territory known for wealth disparity. While these reforms opened opportunities for implementing student-centered pedagogies in schools and increased student access to tertiary education, ethnic minority youth faced ongoing economic and social marginalization on top of academic difficulties. The central narrative captures everyday struggles and contradictions arising from intersections of neoliberal reforms, institutional school histories, students' transnational realities, and collective efforts for equity and social justice. In the course of the book a parallel story unfolds, as the author explores what it means to be a critical teacher and researcher, and is reborn in the process. The book's 'on the ground' story is hopeful, yet tempered, in discussing the limits and possibilities for critical pedagogy. It will be of a great resource for researchers, teacher educators, and pre-service and in-service teachers who are interested in the topic.
