**The Way We Never Were** - Stephanie Coontz  
2016-03-29

The definitive edition of the classic, myth-shattering history of the American family *Leave It to Beaver* was not a documentary, a man's home has never been his castle, the "male breadwinner marriage" is the least traditional family in history,

and rape and sexual assault were far higher in the 1970s than they are today. In *The Way We Never Were*, acclaimed historian Stephanie Coontz examines two centuries of the American family, sweeping away misconceptions about the past that cloud current debates about domestic life. The 1950s do not present a workable model

of how to conduct our personal lives today, Coontz argues, and neither does any other era from our cultural past. This revised edition includes a new introduction and epilogue, exploring how the clash between growing gender equality and rising economic inequality is reshaping family life, marriage, and male-female relationships in our modern era. More relevant than ever, *The Way We Never Were* is a potent corrective to dangerous nostalgia for an American tradition that never really existed.

*The Negro Motorist Green Book* - Victor H. Green

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business,

so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

*Black Families* - Harriette Pipes McAdoo  
2006-08-10

Following the success of its best-selling predecessors, the Fourth Edition of Harriette Pipes McAdoo's *Black Families* retains several now classic contributions while including updated versions of earlier chapters and many entirely new chapters. The goal through each revision of this core text has been to compile a book that focuses on positive dimensions of African American families. The book remains the most complete assessment of black families available in both depth and breadth of coverage. Cross-disciplinary in nature, the book boasts

contributions from such fields as family studies, anthropology, education, psychology, social work, and public policy.

**Way Down in the Hole** - Angela J. Hattery  
2022-10-14

Based on ethnographic observations and interviews with prisoners, correctional officers, and civilian staff conducted in solitary confinement units, *Way Down in the Hole* explores the myriad ways in which daily, intimate interactions between those locked up twenty-four hours a day and the correctional officers charged with their care, custody, and control produce and reproduce hegemonic racial ideologies. Smith and Hattery explore the outcome of building prisons in rural, economically depressed communities, staffing them with white people who live in and around these communities, filling them with Black and brown bodies from urban areas and then designing the structure of solitary confinement units such that the most private, intimate daily bodily functions take place in very

public ways. Under these conditions, it shouldn't be surprising, but is rarely considered, that such daily interactions produce and reproduce white racial resentment among many correctional officers and fuel the racialized tensions that prisoners often describe as the worst forms of dehumanization. *Way Down in the Hole* concludes with recommendations for reducing the use of solitary confinement, reforming its use in a limited context, and most importantly, creating an environment in which prisoners and staff co-exist in ways that recognize their individual humanity and reduce rather than reproduce racial antagonisms and racial resentment.

*Unequal Treatment* - Institute of Medicine  
2009-02-06

Racial and ethnic disparities in health care are known to reflect access to care and other issues that arise from differing socioeconomic conditions. There is, however, increasing evidence that even after such differences are

accounted for, race and ethnicity remain significant predictors of the quality of health care received. In *Unequal Treatment*, a panel of experts documents this evidence and explores how persons of color experience the health care environment. The book examines how disparities in treatment may arise in health care systems and looks at aspects of the clinical encounter that may contribute to such disparities. Patients' and providers' attitudes, expectations, and behavior are analyzed. How to intervene? *Unequal Treatment* offers recommendations for improvements in medical care financing, allocation of care, availability of language translation, community-based care, and other arenas. The committee highlights the potential of cross-cultural education to improve provider-patient communication and offers a detailed look at how to integrate cross-cultural learning within the health professions. The book concludes with recommendations for data collection and research initiatives. *Unequal Treatment* will be

vitaly important to health care policymakers, administrators, providers, educators, and students as well as advocates for people of color. *W. E. B. Du Bois's Data Portraits* - The W.E.B. Du Bois Center at the University of Massachusetts Amherst 2018-11-06

The colorful charts, graphs, and maps presented at the 1900 Paris Exposition by famed sociologist and black rights activist W. E. B. Du Bois offered a view into the lives of black Americans, conveying a literal and figurative representation of "the color line." From advances in education to the lingering effects of slavery, these prophetic infographics—beautiful in design and powerful in content—make visible a wide spectrum of black experience. *W. E. B. Du Bois's Data Portraits* collects the complete set of graphics in full color for the first time, making their insights and innovations available to a contemporary imagination. As Maria Popova wrote, these data portraits shaped how "Du Bois himself thought about sociology, informing the ideas with which

he set the world ablaze three years later in *The Souls of Black Folk*."

**Relations Between Africans and African Americans** - Godfrey Mwakikagile 2007

The author, born and brought up in Africa, looks at relations between Africans and African Americans which have sometimes been described by different observers as "stormy," "complex," "sticky," and even "hostile" as one Nigerian professor put it. This is the third edition which includes information about African immigrants in the United States. Together with foreign students from Africa, they constitute the largest number of continental Africans who interact with African Americans on daily basis.

**New Perspectives on the Civil War** - John Y. Simon 2003-06-05

As the American Civil War recedes into the past, popular fascination continues to rise. Once a matter that chiefly concerned veterans, separately organized North and South, who gathered to refight old battles and to

memorialize the heroes and victims of war, the Civil War has gradually become part of a collective heritage. Issues raised by the war, including its causes and consequences, reverberate through contemporary society. Family and community connections with the war exist everywhere, as do battlefields, memorials, and other physical reminders of the conflict. We, as Americans, are fascinated by the sheer magnitude of the war fought over thousands of miles of American soil and resulting in awesome casualties. It was a gigantic national drama enacted by people who seem both contemporary and remote. Here for the first time, leading Civil War scholars gather to sort out the fact and fiction of our collective memories. Contributors include Pulitzer Prize-winner Mark E. Neely, Jr., Alan T. Nolan, John Y. Simon, James I. "Bud" Robertson, Jr., Gary W. Gallagher, Joseph T. Glatthaar, and Ervin L. Jordan, Jr.

**The Social Dynamics of Family Violence** - Angela Hattery 2019-09-27

*African American Families* - Angela J. Hattery  
2007-04-19

"Bravo to the authors! They have done an excellent job addressing the issues that are critical to community members, policy makers and interventionists concerned with Black families in the context of our nation." —Michael C. Lambert, University of Missouri, Colombia  
"African American Families is a timely work. The strength of this text lies in the depth of coverage, clarity, and the ability to combine secondary sources, statistics and qualitative data to reveal the plight of African Americans in society."  
—Edward Opoku-Dapaah, Winston-Salem State University  
"African American Families is both engaging and challenging and is perhaps one of the most important works I have read in many years. This book will most certainly move the discourse of the socio-economic conditions of

black families forward, beyond the boundaries already set by other books in the market. African American Families is an excellent book whose time has come, and one that I would most definitely adopt." —Lateef O. Badru, University of Louisville  
African American Families provides a systematic sociological study of contemporary life for families of African descent living in the United States. Analyzing both quantitative and qualitative data, authors Angela J. Hattery and Earl Smith identify the structural barriers that African Americans face in their attempts to raise their children and create loving, healthy, and raise the children of the next generation. Key Features: Uses the lens provided by the race, class, and gender paradigm: Examples illustrate the ways in which multiple systems of oppression interact with patterns of self-defeating behavior to create barriers that deny many African Americans access to the American dream. Addresses issues not fully or adequately addressed in previous books on Black families:

These issues include personal responsibility and disproportionately high rates of incarceration, family violence, and chronic illnesses like HIV/AIDS. Brings statistical data to life: The authors weave personal stories based on interviews they've conducted into the usual data from scholarly(?) literature and from U.S. Census Bureau reports. Provides several illustrations from Hurricane Katrina: A contemporary analysis of a recent disaster demonstrates many of the issues presented in the book such as housing segregation and predatory lending practices. Offers extensive data tables in the appendices: Assembled in easy-to-read tables, students are given access to the latest national agencies data from agencies including the U.S. Census Bureau, Centers for Disease Control, and Bureau of Justice Statistics. Intended Audience: This is an ideal textbook for advanced undergraduate and graduate courses such as African American Families, Sociology of the Family, Contemporary Families, and Race and Ethnicity in the

departments of Human Development and Family Studies, Sociology, African American Studies, and Black Studies.

Review • O: The Oprah Magazine • The Washington Post • People • Entertainment Weekly • Vogue • Los Angeles Times • San Francisco Chronicle • Chicago Tribune • New York • Newsday • Library Journal • Publishers Weekly In a profound work that pivots from the biggest questions about American history and ideals to the most intimate concerns of a father for his son, Ta-Nehisi Coates offers a powerful new framework for understanding our nation's history and current crisis. Americans have built an empire on the idea of "race," a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates's attempt to answer these questions in a letter to

his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bracingly confronts our present, and offers a transcendent vision for a way forward.

**Policing Black Bodies** - Angela J. Hattery  
2017-12-08

From Trayvon Martin to Freddie Gray, the stories of police violence against Black people are too often in the news. In *Policing Black Bodies* Angela J. Hattery and Earl Smith make a compelling case that the policing of Black bodies goes far beyond these individual stories of brutality. They connect

the regulation of African American people in many settings, including the public education system and the criminal justice system, into a powerful narrative about the myriad ways Black bodies are policed. *Policing Black Bodies* goes beyond chronicling isolated incidents of injustice to look at the broader systems of inequality in our society—how they're structured, how they harm Black people, and how we can work for positive change. The book discusses the school-to-prison pipeline, mass incarceration and the prison boom, the unique ways Black women and trans people are treated, wrongful convictions and the challenges of exoneration, and more. Each chapter of the book opens with a true story, explains the history and current state of the issue, and looks toward how we can work for change. The book calls attention to the ways class, race, and gender contribute to injustice, as well as the perils of colorblind racism—that by pretending not to see race we actually strengthen, rather than dismantle, racist social

structures. *Policing Black Bodies* is a powerful call to acknowledge injustice and work for change. *The Way We Never Were* - Stephanie Coontz 1992

*The Way We Never Were* examines two centuries of American family life and shatters a series of myths and half-truths that burden modern families. Placing current family dilemmas in the context of far-reaching economic, political, and demographic changes, Coontz sheds new light on such contemporary concerns as parenting, privacy, love, the division of labor along gender lines, the black family, feminism, and sexual practice.

(Social Science)

African American Language - Mary Kohn  
2020-11-30

From birth to early adulthood, all aspects of a child's life undergo enormous development and change, and language is no exception. This book documents the results of a pioneering longitudinal linguistic survey, which followed a cohort of sixty-seven African American children

over the first twenty years of life, to examine language development through childhood. It offers the first opportunity to hear what it sounds like to grow up linguistically for a cohort of African American speakers, and provides fascinating insights into key linguistics issues, such as how physical growth influences pronunciation, how social factors influence language change, and the extent to which individuals modify their language use over time. By providing a lens into some of the most foundational questions about coming of age in African American Language, this study has implications for a wide range of disciplines, from speech pathology and education, to research on language acquisition and sociolinguistics.

Is Marriage for White People? - Ralph Richard Banks 2012-09-25

A distinguished Stanford law professor examines the steep decline in marriage rates among the African American middle class, and offers a paradoxical-nearly incendiary-solution. Black women are three times as likely as white women to never marry. That sobering statistic reflects a broader reality: African Americans are the most unmarried people in our nation, and contrary to public perception the racial gap in marriage is not confined to women or the poor. Black men, particularly the most successful and affluent, are less likely to marry than their white counterparts. College educated black women are twice as likely as their white peers never to marry. Is Marriage for White People? is the first book to illuminate the many facets of the African American marriage decline and its implications for

American society. The book explains the social and economic forces that have undermined marriage for African Americans and that shape everyone's lives. It distills the best available research to trace the black marriage decline's far reaching consequences, including the disproportionate likelihood of abortion, sexually transmitted diseases, single parenthood, same sex relationships, polygamous relationships, and celibacy among black women. This book centers on the experiences not of men or of the poor but of those black women who have surged ahead, even as black men have fallen behind. Theirs is a story that has not been told. Empirical evidence documents its social significance, but its meaning emerges through stories drawn from the lives of women across the nation. Is Marriage for White People? frames the stark predicament that millions of black women now face: marry down or marry out. At the core of the inquiry is a paradox substantiated by evidence and experience alike: If more black women married white men, then

more black men and women would marry each other. This book not only sits at the intersection of two large and well-established markets—race and marriage—it responds to yearnings that are widespread and deep in American society. The African American marriage decline is a secret in plain view about which people want to know more, intertwining as it does two of the most vexing issues in contemporary society. The fact that the most prominent family in our nation is now an African American couple only intensifies the interest, and the market. A book that entertains as it informs, *Is Marriage for White People?* will be the definitive guide to one of the most monumental social developments of the past half century.

**Know Your Price** - Andre M. Perry 2020-05-19  
The deliberate devaluation of Blacks and their communities has had very real, far-reaching, and negative economic and social effects. An enduring white supremacist myth claims brutal conditions in Black communities are mainly the

result of Black people's collective choices and moral failings. "That's just how they are" or "there's really no excuse": we've all heard those not so subtle digs. But there is nothing wrong with Black people that ending racism can't solve. We haven't known how much the country will gain by properly valuing homes and businesses, family structures, voters, and school districts in Black neighborhoods. And we need to know. Noted educator, journalist, and scholar Andre Perry takes readers on a tour of six Black-majority cities whose assets and strengths are undervalued. Perry begins in his hometown of Wilksburg, a small city east of Pittsburgh that, unlike its much larger neighbor, is struggling and failing to attract new jobs and industry. Bringing his own personal story of growing up in Black-majority Wilksburg, Perry also spotlights five others where he has deep connections: Detroit, Birmingham, New Orleans, Atlanta, and Washington, D.C. He provides an intimate look at the assets that should be of greater value to

residents—and that can be if they demand it. Perry provides a new means of determining the value of Black communities. Rejecting policies shaped by flawed perspectives of the past and present, it gives fresh insights on the historical effects of racism and provides a new value paradigm to limit them in the future. Know Your Price demonstrates the worth of Black people's intrinsic personal strengths, real property, and traditional institutions. These assets are a means of empowerment and, as Perry argues in this provocative and very personal book, are what we need to know and understand to build Black prosperity.

**African American Families Today** - Angela Hattery 2012

From teen pregnancy to athletics, myths about African American families abound. This provocative book debunks many common myths about black families in America, sharing stories and drawing on the latest research to show the realities. As the book shows, racial inequality

persists--we're clearly not in a "postracial" society.

**The Myth of the Missing Black Father** - Roberta L. Coles 2010

Common stereotypes portray black fathers as being largely absent from their families. Yet while black fathers are less likely than white and Hispanic fathers to marry their child's mother, many continue to parent through cohabitation and visitation, providing caretaking, financial, and other in-kind support. This volume captures the meaning and practice of black fatherhood in its many manifestations, exploring two-parent families, cohabitation, single custodial fathering, stepfathering, noncustodial visitation, and parenting by extended family members and friends. Contributors examine ways that black men perceive and decipher their parenting responsibilities, paying careful attention to psychosocial, economic, and political factors that affect the ability to parent. Chapters compare the diversity of African American fatherhood with

negative portrayals in politics, academia, and literature and, through qualitative analysis and original profiles, illustrate the struggle and intent of many black fathers to be responsible caregivers. This collection also includes interviews with daughters of absent fathers and concludes with the effects of certain policy decisions on responsible parenting.

### **Group Work with Populations at Risk -**

Geoffrey L. Greif 2017

Group Work with Populations at Risk, Fourth Edition is a fundamental resource for practitioners in health and mental health settings and a comprehensive guidebook of group work skills. Geared toward students and professionals gaining a beginning understanding of groups, this volume describes how to work with vulnerable populations. The first chapters, new additions to this edition and written by a new co-editor, provide overarching skills and techniques that apply across group work settings and populations. These skills, along with case

examples, provide a template for practice with groups. The vulnerable populations that are addressed include returning war veterans, immigrants, the aging and their caregivers, children and adults who have been abused, and people struggling with substance abuse issues, cancer, and chronic mental illness. New chapters have been added for survivors of sex trafficking, children in need of social skills training, people who experienced intimate partner violence, parents who are homeless, and fathers who are incarcerated. Each chapter (designed to stand alone for easy reference) describes the population and reviews the relevant literature, identifies themes and practice principles, presents case illustrations, provides evaluation guidance, and refers readers to key references and web resources.

### **Brainwashed -** Tom Burrell 2010-06

Black people are not dark-skinned white people, says advertising visionary Tom Burrell. In fact, they are a lot more. They are survivors of the

**Black Fortunes** - Shomari Wills 2018-01-30

“By telling the little-known stories of six pioneering African American entrepreneurs, Black Fortunes makes a worthy contribution to black history, to business history, and to American history.”—Margot Lee Shetterly, New York Times Bestselling author of Hidden Figures Between the years of 1830 and 1927, as the last generation of blacks born into slavery was reaching maturity, a small group of industrious, tenacious, and daring men and women broke new ground to attain the highest levels of financial success. Mary Ellen Pleasant, used her Gold Rush wealth to further the cause of abolitionist John Brown. Robert Reed Church, became the largest landowner in Tennessee. Hannah Elias, the mistress of a New York City millionaire, used the land her lover gave her to

build an empire in Harlem. Orphan and self-taught chemist Annie Turnbo-Malone, developed the first national brand of hair care products. Mississippi school teacher O. W. Gurley, developed a piece of Tulsa, Oklahoma, into a “town” for wealthy black professionals and craftsmen that would become known as “the Black Wall Street.” Although Madam C. J Walker was given the title of America’s first female black millionaire, she was not. She was the first, however, to flaunt and openly claim her wealth—a dangerous and revolutionary act. Nearly all the unforgettable personalities in this amazing collection were often attacked, demonized, or swindled out of their wealth. Black Fortunes illuminates as never before the birth of the black business titan.

**Getting Real About Race** - Stephanie M. McClure 2017-08-24

by students, and by many in the United States, in general.

**African Americans and Homeschooling** - Ama Mazama 2014-08-27

Despite greater access to formal education, both disadvantaged and middle-class black students continue to struggle academically, causing a growing number of black parents to turn to homeschooling. This book is an in-depth exploration of the motivations behind black parents' decision to educate their children at home and the strategies they've developed to overcome potential obstacles. Citing current issues such as culture, religion and safety, the book challenges the commonly expressed view that black parents and their children have divested from formal education by embracing homeschooling as a constructive strategy to provide black children with a valuable educational experience.

America's Teenagers--Myths and Realities - Sharon L. Nichols 2004-07-19

The media's presentation suggests that American teenage culture today is the most violent, sexual, and amoral youth culture in history. In this book, Nichols and Good deconstruct the negative images held by large numbers of adults.

Recognizing that many teenagers are left by adults to socialize themselves and the consequences of this "careless indifference," the authors' goal is to influence a more positive view leading to stronger social policies and better services, resources, and programs to meet the needs of America's youth. Unique features of America's Teenagers--Myths and Realities: Media Images, Schooling, and the Social Costs of Careless Indifference include: \*powerful analytic lenses used to revisit typical depictions of youth; \*a wealth of information brought to bear on understanding teenagers' behavior; and \*consideration of a broad range of adolescent behaviors across critical socializing settings. The book begins with a discussion of the continuing myth of adolescence--how and why youth are

devalued, and an overview of current beliefs about youth drawn from two 1990s Public Agenda Polls. This is followed by chapters on youth and the media, and the pressures that youth face in various dimensions of their lives. Topics include youth violence; the sex lives of teenagers; tobacco, alcohol, drugs, and teens; healthy living and decision making; working teens; and youth and education. The concluding chapter pulls together themes generated throughout the book and provides examples of policies that would underscore the value of viewing youth as a social investment. General guidelines are provided for teachers, parents, policymakers, and citizens to facilitate responding to youth in meaningful, proactive ways that improve the quality of life for teenagers and the broader society.

### **Contemporary African American Families -**

Dorothy Smith-Ruiz 2016-10-04

For decades the black community has been perceived, both in the United States and around

the world, as one which thinks alike, acts alike and lives alike - in poor and downtrodden environments. Following the persistent effects of the great recession and the American elections of 2008, now more than ever the political and socio-economic state of America is crying out for this deficient and prejudiced conception to be dispelled. Focusing primarily on black families in America, Contemporary African American Families updates empirical research by addressing various aspects including family formation, schooling, health and parenting. Exploring a wide class spectrum among African American families, this text also modernizes and subverts much of the research resulting from Moynihan's 1965 report, which arguably misunderstood the lived experiences of black people during the movement from slavery to freedom in a Jim Crow society. A timely subversion of the myth that America is successfully in a post-racial era, this new anthology on the Black Family in America will

appeal to advanced undergraduate students and research scholars interested in black studies, Africana studies, women and gender studies, sociology, political science, anthropology, criminal justice, education, psychology, public policy, health policy and social work.

**The Social Dynamics of Family Violence -**

Angela J. Hattery 2019-09-27

The Social Dynamics of Family Violence explores family violence throughout the life course, from child abuse and neglect to intimate partner violence and elder abuse. Paying special attention to the social character and institutional causes of family violence, Hattery and Smith ask students to consider how social inequality, especially gender inequality, contributes to tensions and explosive tendencies in family settings. Students learn about individual preventative measures and are also invited to question the justice of our current social structure, with implications for social policy and reorganization. Hattery and Smith also examine

violence against women globally and relate this to violence in the United States. Unique coverage of same-sex and multicultural couples, as well as of theory and methods, make this text an essential element of any course considering the sociology of family violence.

**Nathan Bedford Forrest and African-**

**Americans** - Lochlainn Seabrook 2016-01-30

According to Yankee historians Confederate General Nathan Bedford Forrest was a vicious redneck who detested blacks, beat his slaves,

refused to fight alongside African-Americans, killed black Union soldiers on sight, committed a racist massacre at the Battle of Fort Pillow, and founded and led the Ku Klux Klan in an attempt to rid the South of blacks. Actually, the opposite is true. But Liberals, anti-South writers, and pro-North educators have done their best to make sure you never find out. Now all of that's changed! In his enlightening book "Nathan Bedford Forrest and African-Americans: Yankee Myth, Confederate Fact," award-winning author, Forrest scholar, and unreconstructed Southern historian Lochlainn Seabrook reveals the facts about the great Confederate chieftain that have been suppressed for 150 years, debunking these and other Yankee myths that were long ago invented in order to taint Forrest's reputation, demean the South, and hide the truth about Lincoln's War from the public. Mr. Seabrook's generously illustrated, clearly written work examines the five primary myths associated with Forrest and African-Americans, from the

General's alleged racism and his treatment of slaves, to his attitude toward black Confederates and his real relationship with the original KKK. The reader will learn, for example, that Forrest, while possessed of the characteristic European-American values and views of his day, was far from the monstrous bigot portrayed in our history books, and that he was, as he himself put it, "a friend of the colored race," one who treated his slaves with respect and humanity, freed them long before Lincoln's fake and illegal Emancipation Proclamation, enlisted 45 of them in his cavalry, and hand-picked seven to be his personal armed guards. Of his loyal and brave African-American soldiers Forrest publicly said: "These boys stayed with me for the entire war. Better Confederates did not live." We also learn that there was no "racist massacre" at the Battle of Fort Pillow, that Forrest was neither the founder or the Grand Wizard of the KKK, that the Civil War Klan was not a racist organization (but an anti-carpetbag group with no connection to

the modern KKK), and that thousands of African-Americans not only supported and even assisted the Civil War KKK, there was also an all-black Ku Klux Klan in Nashville, Tennessee. This one-of-a-kind book, Mr. Seabrook's ninth on the General, blows the lid off the Yankee myths about "Nathan Bedford Forrest and African-Americans." Includes an index, bibliography, reference notes, and a comprehensive appendices section. Though brief, this heavily researched study is a powerful educational tool that will forever alter the way you look at Forrest, Lincoln's War, and the South. Destined to become a Southern classic. Civil War scholar Lochlainn Seabrook, a descendant of the families of Alexander H. Stephens and John S. Mosby, is the most prolific and popular pro-South writer in the world today. Known as the "new Shelby Foote," he is a recipient of the prestigious Jefferson Davis Historical Gold Medal and the author of over 45 books that have introduced thousands to the truth about the War for Southern Independence. A seventh-generation

Kentuckian of Appalachian heritage and the sixth great-grandson of the Earl of Oxford, Mr. Seabrook has a forty-year background in American and Southern history, and is the author of the runaway bestsellers "Everything You Were Taught About the Civil War is Wrong, Ask a Southerner!" and "Confederate Flag Facts: What Every American Should Know About Dixie's Southern Cross."

[Black Families and Recession in the United States](#)

- Dorothy Smith-Ruiz 2021-03-31

*Black Families and the Recession in the United States* goes beyond the massive loss of property among African Americans during the Great Recession of 2007–2009. It connects the housing experience to broader systems of inequality in America. Following the Great Recession of 2007–2009, the US elections of 2008, the impact of COVID-19, and widespread demonstrations resulting from the murder of George Floyd by police, the sociopolitical and economic status of Blacks in the United States is at a critical point in history, with demand for major transformation. The authors reveal a history of racist practices against Blacks in many systems, including education, policing, incarceration, wealth transmission, voting restrictions, and housing segregation. The social costs of the recession are manifested in the daily lives of African American families. In addition to financial losses, African Americans are more likely to be plagued with issues related to poverty, chronic illnesses, and

lack of trust of social and economic institutions. Research, policy, and practical implications of this research include identifying social and economic supports unique to African Americans and determining strategies to strengthen families; paramount to addressing racial disparities. The interdisciplinary focus of this book appeals to a wide audience and areas of study.

*What Does it Mean to be White?* - Robin J. DiAngelo 2012

What does it mean to be white in a society that proclaims race meaningless yet is deeply divided by race? In the face of pervasive racial inequality and segregation, most whites cannot answer that question. Robin DiAngelo argues that a number of factors make this question difficult for whites: miseducation about what racism is; ideologies

such as individualism and colorblindness; defensiveness; and a need to protect (rather than expand) our worldviews. These factors contribute to what she terms white racial illiteracy. Speaking as a white person to other white people, Dr. DiAngelo clearly and compellingly takes readers through an analysis of white socialization. She describes how race shapes the lives of white people, explains what makes racism so hard for whites to see, identifies common white racial patterns, and speaks back to popular white narratives that work to deny racism. Written as an accessible introduction to white identity from an anti-racist framework, *What Does It Mean To Be White?* is an invaluable resource for members of diversity and anti-racism programs and study groups and students of sociology, psychology, education, and other disciplines.
