#### **Architect's Guide to Feng Shui** - Cate Bramble 2007-06-01

Cate Bramble has devoted her career to highlighting the differences between 'feng shui-lite' as a fashionable pursuit in contrast to the original intentions of the Chinese masters. Here she presents the authentic principles in a technical, no-nonsense pocket book specifically for architects. As clients become more demanding and the competition for projects heats up, the architect is well advised to have many strings to their bow. This practical guide includes line illustrations that present the principles of feng shui, the Chinese art or practice in which a structure or site is chosen or configured so as to harmonize with the spiritual forces that inhabit it, and their application in architecture through planning principles, services, building elements and materials, in an accessible, easy reference format. The feng shui-savvy architect can also benefit from feng shui's ability to match structures and land, and the peculiar capacity of authentic feng shui to forecast development-related concerns including cost overruns, quality issues - even worker injuries and trade disputes! The author explains feng shui from archaeological sources and evidence of practice in the east, contrasting it with what passes for feng shui in the west. She

analyses the practice in terms of such concepts as western systems theory, viewshed, space syntax and the 'pattern landscape' theory of urban planning. For the first time, the Sustainable implications of feng shui design are explained with reference to the latest developments in behavioural and cognitive sciences, evolutionary biology and other western viewpoints.

This book has the potential to profoundly transform your world view. Using high-speed photography, Dr. Masaru Emoto discovered that crystals formed in frozen water reveal changes when specific, concentrated thoughts are directed toward them. He found that water from clear springs and water that has been exposed to loving words shows brilliant, complex, and colorful snowflake patterns. *Indigenous Literatures from Micronesia* - Evelyn Flores 2019-04-30

For the first time, poetry, short stories, critical and creative essays, chants, and excerpts of plays by Indigenous Micronesian authors have

been brought together to form a resounding—and distinctly Micronesian—voice. With over two thousand islands spread across almost three million square miles of the Pacific Ocean, Micronesia and its peoples have too often been rendered invisible and insignificant both in and out of academia. This long-awaited anthology of contemporary indigenous literature will reshape Micronesia's historical and literary landscape. Presenting over seventy authors and one hundred pieces, Indigenous Literatures from Micronesia features nine of the thirteen basic language groups, including Palauan, Chamorro, Chuukese, I-Kiribati, Kosraean, Marshallese, Nauruan, Pohnpeian, and Yapese. The volume editors, from Micronesia themselves, have selected representative works from throughout the region—from Palau in the west, to Kiribati in the east, to the global diaspora. They have reached back for historically groundbreaking work and scouted the present for some of the most cited and provocative of published pieces and for the most promising new authors. Richly diverse, the stories of Micronesia's resilient peoples are as vast as the sea and as deep as the Mariana Trench. Challenging centuries-old reductive representations, writers passionately explore seven complex themes: "Origins" explores creation, foundational, and ancestral stories; "Resistance" responds to colonialism and militarism; "Remembering" captures diverse memories and experiences; "Identities" articulates the nuances of culture; "Voyages" maps migration and diaspora; "Family" delves into interpersonal and community relationships; and "New Micronesia" gathers experimental, liminal, and cutting-edge voices. This anthology reflects a worldview unique to the islands of Micronesia, yet it also connects to broader issues facing Pacific Islanders and indigenous peoples throughout the world. It is essential reading for anyone interested in Pacific, indigenous, diasporic, postcolonial, and environmental studies and literatures.
