Tragedia de Numancia - Miguel de Cervantes

Primera edición crítica de la Tragedia de Numancia, para su fijación textual se han tenido en cuenta los dos manuscritos disponibles (Hispanic Society of America y Biblioteca Nacional de Madrid), así como 24 ediciones esenciales, desde la doble de Antonio de Sancha. Cervantes trasciende la tradición senequista de los años ochenta del siglo XVI; su fondo crítico no solo anticipa obras posteriores del autor sino que continúa sugiriendo las más diversas adaptaciones exaltadoras de la libertad.

*Polity and Ecology in Formative Period Coastal Oaxaca* - Arthur A. Joyce 2013-02-15

Encapsulating two decades of research, Polity and Ecology in Formative Period Coastal Oaxaca is the first major treatment of the lower Río Verde region of Oaxaca, investigating its social, political, and ecological history. Tracing Formative period developments from the earliest known evidence of human presence to the collapse of Río Viejo (the region's first centralized polity), the volume synthesizes the archaeological and paleoecological evidence from the valley. This period saw the earliest agricultural settlements in the region as well as the origins of sedentism and social complexity, and witnessed major changes in floodplain and coastal environments that expanded the productivity of subsistence resources. The book addresses theoretically significant questions of broad relevance such as the origins and spread of agriculture, the social negotiation of complex political formations, the effects of long-distance trade and interaction, the macroregional effects of landscape change, and prehispanic ideology

and political power. Focusing on questions of interregional interaction, environmental change, and political centralization, Polity and Ecology in Formative Period Coastal Oaxaca provides a comprehensive understanding of the Formative period archaeology of this important and long neglected region of Oaxaca.

Обработка резанием сталей, жаропрочных и титановых сплавов с учетом их физико-механических свойств -

Владимир Райхельсон 2022-02-10

В книге освещены основные виды механической обработки резанием современных конструкционных сталей, жаропрочных и титановых сплавов лезвийными инструментами: точение, строгание, сверление, фрезерование, протягивание, разрезка заготовок и прорезка пазов; представлены формулы, позволяющие оперативно производить расчеты и решать практические задачи оптимального выбора режимов резания этих материалов в зависимости от их физико-механических характеристик, полученных в результате статических испытаний металлов с учетом их упрочнения и измененных условий резания (структуры и свойств металлов, термообработки, режимов резания, геометрических параметров режущей части и износа инструмента и

др.). Обобщение данных по выбору режимов резания в одной книге позволит заводским технологам и студентам машиностроительных специальностей, связанных с разработкой и внедрением новых материалов, технологией изготовления и производством современной техники, значительно сократить затраты времени на поиски этих данных, предотвратить расходы дорогостоящих металлов на экспериментальные исследования, поможет использовать полученные материалы в их научной и практической работе. Книга содержит большой научно-практический и справочный материал, она рассчитана на инженерно-технических работников предприятий машиностроения, авиакосмической отрасли, энерго- и автостроения, оборонной промышленности. Она также послужит учебным пособием для студентов и преподавателей высших и средних учебных заведений машиностроительных специальностей.

**Paso de la Amada** - Richard G Lesure  
2021-08-29

Paso de la Amada, an archaeological site in the Soconusco region of the Pacific coast of Mexico, was among the earliest sedentary, ceramic-using villages of Mesoamerica. With an occupation that extended across 140 ha in 1600 BC, it was also one of the largest communities of its era. First settled around 1900 BC, the site was abandoned 600 years later during what appears to have been a period of local political turmoil. The decline of Paso de la Amada corresponded with a rupture in local traditions of material culture and local adoption of the Early Olmec style. Stylistically, the material culture of Paso de la Amada corresponds predominantly to the pre-Olmec Mokaya tradition. Excavations at the site have revealed significant earthen constructions from as early as 1700 BC. Those include the earliest known Mesoamerican ball court and traces of a series of high-status residences. This

monograph reports on large-scale excavations in Mounds 1, 12, and 32, as well as soundings in other locations. The volume covers all aspects of excavations and artifacts and includes three lengthy interpretive chapters dealing with the main research questions, which concern subsistence, social inequality, and the organizational history of the site.

**The Complete Poetry** - César Vallejo  
2009-12-14

"César Vallejo is the greatest Catholic poet since Dante—and by Catholic I mean universal."—Thomas Merton, author of *The Seven Storey Mountain* "An astonishing accomplishment. Eshleman's translation is writhing with energy."—Forrest Gander, author of *Eye Against Eye* "Vallejo has emerged for us as the greatest of the great South American poets—a crucial figure in the making of the total body of twentieth-century world poetry. In Clayton Eshleman's spectacular translation, now complete, this most tangled and most rewarding of poets comes at us full blast and no holds barred. A tribute to the power of the imagination as it manifests through language in a world where meaning has always to be fought for and, as here, retrieved against the odds."—Jerome Rothenberg, co-editor of *Poems for the Millennium* "Every great poet should be so lucky as to have a translator as gifted and heroic as Clayton Eshleman, who seems to have gotten inside Vallejo's poems and translated them from the inside out. The result is spectacular, or as one poem says, 'green and happy and dangerous.'"—Ron Padgett, translator of *Complete Poems* by Blaise Cendrars "César Vallejo was one of the essential poets of the twentieth century, a heartbreaking and groundbreaking writer, and this gathering of the many years of imaginative work by Clayton Eshleman is one of Vallejo's essential locations in the

English tongue."—Robert Hass, former Poet Laureate of the United States "This is a crucially important translation of one of the poetic geniuses of the twentieth century."

—William Rowe, author of *Poets of Contemporary Latin America: History and the Inner Life* "Only the dauntless perseverance and the love with which the translator has dedicated so many years of his life to this task can explain why the English version conveys, in all its boldness and vigor, the unmistakable voice of César Vallejo."—Mario Vargas Llosa

**Becoming Villagers** - Matthew S. Bandy 2010-12-15

The shift from mobile hunting and gathering to more sedentary, usually agricultural, lifeways was one of the most significant milestones in the prehistory of humanity. This transformation was spurred by an alignment of social and ecological forces, pressures, and adaptations, and it took place in broadly comparable ways in many prehistoric settings. Based on a Society for American Archaeology symposium and subsequent Amerind Advanced Seminar in 2006, *Becoming Villagers* examines this transformation at various places and times across the globe by focusing not on the origins of agriculture and village life but rather on their consequences. The goal of the volume is to identify regularities in the ways that societies developed in the centuries and millennia following a transition to village life. Using cases that range from China to Bolivia and from the Near East to the American Southwest, leading archaeologists situate their specific areas of specialization in a broad comparative context. They consider the forces acting to divide and fragment early villages and the social technologies and practices by which those obstacles were, in some cases, overcome. Finally, the volume examines the long-term historical trajectories of these early village societies. This transformative

collection makes a powerful case for a renewed and invigorated archaeological focus on large-scale comparative studies. It will be an essential read for anyone interested not only in early village societies but also in the ways in which archaeology relates to anthropology, other social sciences, and history. CONTENTS: "Becoming Villagers: The Evolution of Early Village Societies," Matthew S. Bandy and Jake R. The Political Economy of Ancient

Mesoamerica - Vernon L. Scarborough 2007  
One of the most culturally diverse regions of the ancient world, Mesoamerica was also one of the fledgling areas for state formation. The case studies in this volume interpret Mesoamerican civilization through the emergence, resilience, and occasional demise of Mesoamerica's early and developing political economies. An exploration of the unique adaptations and approaches taken by Mesoamerican societies to cope with their evolving landscapes provides insight on how these states were organized and the varying ways in which state affairs were conducted between regions and through time. Although several factors are presented and discussed for the rise and fall of the many complex societies, the book maintains a consistent emphasis on the political economy and its transformative effects over labor, land, and water. Inspired by the impact of the annual yearbook "Research in Economic Anthropology" (REA) and its longstanding editor, Barry L. Isaac, the contributors in this volume were assembled to honor Isaac and selected based on their previous association with Isaac and REA as well as their knowledge of particular regions of Mesoamerica. **Ten Women** - Marcela Serrano 2014

Award-winning Chilean author Marcela Serrano weaves a beautiful story about the universal connections between women. For nine Chilean women, life couldn't be more different. There is the teenage computer whiz confronting her sexual identity. A middle-aged recluse who prefers the company of her dog over that of most humans. A housekeeper. A celebrity television personality. A woman confronting the loneliness of old age. Of disparate ages and races, these women represent the variety of cultural and social groups that Chile comprises. On the surface, they seem to have nothing in common...except for their beloved therapist, who brings them together. Yet as different as they all are, each woman has a story to share. As the women tell their stories, unlikely common threads are discovered, bonds are formed, and lives are transformed. Their stories form an intricate tale of triumph, heartache, and healing that will resonate with women from all walks of life. An International DUBLIN Literary Award Nominee.
