**The Violence of Modernity** - Debarati Sanyal 2020-03-03

The Violence of Modernity turns to Charles Baudelaire, one of the most canonical figures of literary modernism, in order to reclaim an aesthetic legacy for ethical inquiry and historical critique. Works of modern literature are commonly theorized as symptomatic responses to the trauma of history. In a climate that tends to privilege crisis over critique, Debarati Sanyal argues that it is urgent to rethink literary experience in terms that recall its contestatory potential. Examining Baudelaire's poems afresh, she shifts the focus of critical attention toward an account of modernism as an active engagement with violence, specifically the violence of history in nineteenth-century France. Sanyal analyzes a literary current that uses the traditional hallmarks of modernism—irony, intertextuality, self-reflexivity, and formalism—to challenge the historical violence of modernity. Baudelaire and the committed ironists writing in his wake teach us how to read and resist the violence of history, and thereby to challenge the melancholy tenor of our contemporary "wound culture." In a series of provocative readings, Sanyal presents Baudelaire's poetry as an aesthetic form that contests historical violence through rhetorical strategies of complicity, counterviolence, and critique. The book develops a new account of Baudelaire's significance as a modernist by dislodging him both from his traditional status as a practitioner of "art for art's sake" and from his more recent incarnation as the poet of trauma. Following her extended analysis of Baudelaire's poetry, Sanyal in later chapters considers a number of authors influenced by his strategies—including Rachilde, Virginie Despentes, Albert Camus, and Jean-Paul Sartre—to examine the relevance of their interventions for our current climate of trauma and terror. The result is a study that underscores how Baudelaire's legacy continues to energize literary engagements with the violence of modernity.

*Sociocultural Theory in Second Language Education* - Merrill Swain 2011

In this accessible introduction to Vygotskyian sociocultural theory, narratives illuminate key concepts of the theory. These key concepts, addressed across seven chapters, include mediation; Zone of Proximal Development; collaborative dialogue; private speech; everyday and scientific concepts; the interrelatedness of cognition and emotion, activity theory and assessment. An eighth chapter provides readers with an opportunity to consider two additional narratives and apply the SCT concepts that they have become familiar with. These narratives come from individuals in a variety of languages, contexts, ages and

proficiencies. We hear from learners, teachers and researchers. Intended for graduate and undergraduate audiences, this textbook includes controversies in the field, questions for collaborative discussion and provides references to important work in the literature of second language teaching, learning and research. This book presents a unique introduction to Sociocultural Theory. Through the telling of fascinating stories the authors familiarize the reader with the concepts that are central to the theory and in particular to how the theory relates to the teaching and learning of languages beyond the first. It is an exceptional piece of scholarship that I think Vygotsky would have wholeheartedly endorsed." James P. Lantolf, the Pennsylvania State University, USA "This book is a most welcome addition to the growing literature on sociocultural theory. It is refreshing to come across such a reader-friendly book dealing with complex constructs. The book provides an overview of key concepts in sociocultural theory, and then, using a set of narratives, illustrates how these concepts can be used to explain phenomena in second language learning and teaching. As such, the authors have succeeded in producing an accessible and highly engaging introduction to sociocultural theory." Neomy Storch, The University of Melbourne, Australia "Sociocultural Theory in Second Language Education is a highly recommended and worthwhile book for all those who seek to understand how sociocultural theory is entailed in teaching practice. Using narratives of teaching recounted in the voices of language learners and teachers, Swain and her co-authors bring the major concepts of Vygotsky to life in clear and accessible ways. Contributing to the conceptual analysis of each story is information on allied concepts, key studies, controversies and discussion topics. This book is certain to be a mainstay in language teacher education programs and in courses on sociocultural theory and second language acquisition." Richard Donato, University of Pittsburg, USA The authors, each from a different background, share a passion for sociocultural theory. Each author brings stories, data and experiences from her area of expertise: second language pedagogy and teacher development (Linda); elementary classroom teaching with second language and bilingual students (Penny) and teaching and research in bilingual education and second language learning (Merrill). Penny lectures at the University of Toronto. Linda is an associate professor at York University in Toronto. Merrill is a professor emeritus at OISE University of Toronto.

*Grotesque Figures* - Virginia E. Swain 2020-03-03

Charles Baudelaire is usually read as a paradigmatically modern poet, whose work ushered in a new era of French literature. But the common emphasis on his use of new forms and styles overlooks the complex role of the past in his work. In *Grotesque Figures*, Virginia E. Swain explores how the specter of the eighteenth century made itself felt in Baudelaire's modern poetry in the pervasive textual and figural presence of Jean-Jacques Rousseau. Not only do Rousseau's ideas inform Baudelaire's theory of the grotesque, but Rousseau makes numerous appearances in Baudelaire's poetry as a caricature or type representing the hold of the

Enlightenment and the French Revolution over Baudelaire and his contemporaries. As a character in "Le Poème du hashisch" and the Petits Poèmes en prose, "Rousseau" gives the grotesque a human form. Swain's literary, cultural, and historical analysis deepens our understanding of Baudelaire and of nineteenth-century aesthetics by relating Baudelaire's poetic theory and practice to Enlightenment debates about allegory and the grotesque in the arts. Offering a novel reading of Baudelaire's ambivalent engagement with the eighteenth-century, *Grotesque Figures* examines nineteenth-century ideological debates over French identity, Rousseau's political and artistic legacy, the aesthetic and political significance of the rococo, and the presence of the grotesque in the modern.
