*Gov.Officials To Master Noting & Drafting* - M.K.Agarwal 2007-09-05  
File noting has been in the recent past, and still is, under heated discussion in the context of Right to Information Act, 2005. It has, thus, been drawing a lot of interest from all concerned. Basic note in a file is written by an Office Assistant/ Assistant Section Officer. A good note should properly define and analyse the problem; refer to relevant rules, regulations, policies and precedents; talk about alternative solutions; discuss implications of these various alternatives and then suggest a suitable solution and a draft reply. Noting and drafting has, therefore, always been a vital part of decision-making process in the Government. the quality of Noting and Drafting has deteriorated over the years. There is hardly any publication on the subject except for some references in the manuals of office procedures. Hence, this attempt, A book for Government Officials to Master Noting and Drafting. It is a comprehensive book which talks about various concepts, the significance, features of good and bad notings, and skilful drafts citing examples drawn from actual files. Different exercises, their solutions, and samples of some good file notings and useful drafts make this book valuable for all its readers.

Religion, Ritual and Ritualistic Objects - Albertina (Tineke) Nugteren

2019-04-23

This is a volume about the life and power of ritual objects in their religious ritual settings. In this Special Issue, we see a wide range of contributions on material culture and ritual practices across religions. By focusing on the dynamic interrelations between objects, ritual, and belief, it explores how religion happens through symbolic materiality. The ritual objects presented in this volume include: masks worn in the Dogon dance; antique ecclesiastical silver objects carried around in festive processions and shown in shrines in the southern Andes; funerary photographs and films functioning as mnemonic objects for grieving children; a dented rock surface perceived to be the god's footprint in the archaic place of pilgrimage, Gaya (India); a recovered manual of rituals (from Xiapu county) for Mani, the founder of Manichaeism, juxtaposed to a Manichaeian painting from southern China; sacred stories and related sacred stones in the Alor-Pantar archipelago, Indonesia; lotus symbolism, indicating immortalizing plants in the mythic traditions of Egypt, the Levant, and Mesopotamia; lavishly illustrated variations of portrayals of Ravana, a Sinhalese god-king-demon; figurines made of cow dung sculptured by rural women in Rajasthan (India); and mythical artifacts called 'Apples of Eden' in a well-known interactive game series.

Inequality, Growth, and Poverty in an Era of Liberalization and Globalization - Giovanni Andrea Cornia 2004-03-18

Within-country income inequality has risen since the early 1980s in most of the OECD, all transitional, and many developing countries. More

recently, inequality has risen also in India and nations affected by the Asian crisis. Altogether, over the last twenty years, inequality worsened in 70 per cent of the 73 countries analysed in this volume, with the Gini index rising by over five points in half of them. In several cases, the Gini index follows a U-shaped pattern, with the turn-around point located between the late 1970s and early 1990s. Where the shift towards liberalization and globalization was concluded, the right arm of the U stabilized at the 'steady state level of inequality' typical of the new policy regime, as observed in the UK after 1990. Mainstream theory focusing on rises in wage differentials by skill caused by either North-South trade, migration, or technological change poorly explains the recent rise in income inequality. Likewise, while the traditional causes of income polarization-high land concentration, unequal access to education, the urban bias, the 'curse of natural resources'-still account for much of cross-country variation in income inequality, they cannot explain its recent rise. This volume suggests that the recent rise in income inequality was caused to a considerable extent by a policy-driven worsening in factorial income distribution, wage spread and spatial inequality. In this regard, the volume discusses the distributive impact of reforms in trade and financial liberalization, taxation, public expenditure, safety nets, and labour markets. The volume thus represents one of the first attempts to analyse systematically the relation between policy changes inspired by liberalization and globalization and income inequality. It suggests that capital account liberalization appears to have had on average-the strongest disequalizing effect, followed by domestic financial liberalization, labour market deregulation, and tax reform. Trade liberalization had unclear effects, while public expenditure reform often had positive effects.

### **India Reckoning** - Bimal Jalan 2021-11-18

For Jalan, there are two clear priorities for the future: to continue and benefit from the dramatic global changes in technology, trade, and investment over the previous three decades, and to get rid of the deadweight of the past in order to maximize the benefits from our economic and political strength. Jalan offers a blueprint for the government to launch reforms to reduce corruption and administrative bottlenecks in the delivery of services to the people, such as by · Reducing corruption in the administrative system · Improving the role of the legislative, executive and judiciary in policymaking · Improving governance and politics in a resurgent India and · Strengthening the functioning of the financial and banking sectors. In nine succinct chapters, Jalan with his characteristic insight and brilliance, discusses a range of political and economic issues which will help India realize its full potential as one of the fastest-growing, emerging economies in the world.

*Trends in Poverty and Livelihoods in Coastal Fishing Communities of Orissa State, India* - Venkatesh Salagrama 2006

This study analyses the livelihoods of marine fishing communities in the Indian coastal state of Orissa using the sustainable livelihoods approach. It investigates the relationships between livelihoods and coastal poverty and seeks to develop simple qualitative indicators to monitor the changes in these relationships over time. The key trends affecting the livelihoods of the poor in the coastal fishing communities in Orissa range across the whole spectrum of "assets" - i.e. the natural, physical, social, human and financial - and contribute to changes in terms of availability as well as

access to the assets for the poorer stakeholders. This paper also examines the impact of seasonality and shocks upon the fisheries-based livelihoods and the importance and influence of various policies, institutions and processes in addressing the fishers' need to cope with their vulnerability context in a meaningful manner. It summarizes the various factors having an impact upon the livelihoods of the fishers and develops them into simple indicators relevant in assessing the changing patterns of poverty in fishing communities of Orissa.
