Endgame Poker Strategy - ICM until they make a costly mistake at a big final table - don't be one of those players.
Dara O'Kearney
2021-09-27
Most poker players don't think they need to study The Independent Chip

Model (ICM) is the most important strategy concept in multi table tournaments, yet very few players understand it, other than knowing they should play tighter on the bubble. Not only does ICM impact the single biggest monetary decisions you make in poker, it also influences everything in a tournament from game selection, staking, when to register, playing the early levels, the bubble, the final table and much more. Endgame Poker Strategy is the first book to take a deep dive into the subject of ICM and how it impacts how you should play in tournaments. This book contains groundbreaking insights that most professional poker players are not aware of, including:

- How to adjust your play in the late stages of tournaments
- When to

ladder and when to play for the win

- How to negotiate profitable final table deals
- The optimal game selection, rebuy and late registration strategies
- How to play short, average and big stacks at the end of tournaments

Dara O’Kearney is a professional poker player, sponsored Unibet Pro and co-host of The Chip Race Podcast. He is regarded as one of the best satellite grinders in the world and professional poker players seek out his advice on ICM whenever they prepare for a big final table. He is the co-author of the best selling books *Poker Satellite Strategy* and *PKO Poker Strategy*. “In an era of solvers and preflop charts, game states involving ICM pressure remain one of the few unsolved and untapped areas of poker.

Endgame Poker Strategy does an excellent job of clearly explaining the most important ICM ideas and effects. Whether you are a beginning player looking to build an understanding of how ICM works, or a more advanced player looking to better internalise ICM concepts, there is something in this book for you.” - Daniel Dvoress, high stakes poker player

The Professor, the Banker, and the Suicide King - Michael Craig
2008-06-17

In 2001, a stranger from Texas entered the high-stakes poker room in the Bellagio casino in Las Vegas. A self-made billionaire, he challenged some of poker's greatest players to a series of heads-up matches. By the end, there was more than \$20 million on the table. For the first time ever, here is the detailed,

true account of the legendary Big Game that shocked the poker world. Putting you railside to observe the pulse-pounding action, it takes you inside the iron-nerved mind of the professional gambler. Filled with vivid characters, sensational tales, and riveting human drama, this is a unique, suspenseful journey into the world of people who live on the razor's edge of fortune-where incredible wealth or utter ruin turn on the flip of a card.

PL0 3Bet Pots Game Theory and Practice - Cory Mikesell 2017-09

The book aims to get you started on a practical path right away. Its sole topic is low SPR scenarios (e.g. 3B pots) in PL0 and how to break down their strategies into something that you can understand and actually implement.

These scenarios are both frequent, important for the win rate, and they lend themselves to solver study since shallow stack scenarios are the easiest ones to compute solutions for.

PKO Poker Strategy -

Dara O'Kearney

2020-06-24

The fastest growing format in online poker is without doubt Progressive Knockout tournaments. Online poker rooms like them, recreational poker players love them, yet a lot of serious poker players struggle to get to grips with the way the strategy changes compared to regular MTTs. In PKO Poker Strategy professional poker player Dara O'Kearney has done rigorous study using the latest solver technology to show you the biggest adjustments you need to beat these tournaments. This book fixes your

biggest leaks and takes the uncertainty out of PKOs. You will learn:

- How to adjust your ranges in a PKO
- When to gamble for a big bounty
- How to adjust when the payouts and final table are a factor
- When you should stick to a more standard strategy
- Quick PKO math you can do at the tables

Dara O'Kearney is a professional poker player from Ireland, specialising in online tournaments and with a reputation as one of the great teachers of the game. He is the co-author of the best-selling *Poker Satellite Strategy*, the co-host of the award-winning *Chip Race Poker Podcast* and is sponsored by Unibet Poker. "Dara's outlook on PKO tournaments is expectedly methodical. Knowing how wide to chase bounties is one of the most important adjustments and this

book will equip you with the knowledge to work it out on the fly." - Adam Owen, professional poker player This book uses the most up-to-date poker ICM solvers, however it has been written in a way to make the poker math you need to do at the tables very simple. Every chapter starts from a poker GTO framework but then explains how you should deviate when the players or table dynamics change. It covers major adjustment in PKO play, including a short hand way to decide on calling ranges, the poker game theory behind why you should never late register, post flop play, poker mindset issues unique to PKOs and much more. It has everything a texas hold'em player needs to crush knockout tournaments.

No-Limit Hold 'em for Advanced Players -

Matthew Janda 2017-06

In 2003 poker was put on television and no-limit hold 'em quickly became the most popular form of poker played in casinos, public cardrooms, and on the Internet. At first, because of the newness of the game to most participants, they could be easily be beaten by players with only a moderate knowledge of sophisticated strategy. But today, this is no longer the case. Even though no-limit hold 'em is not, from a Game Theory perspective, a solved game, many ideas and concepts which come from this branch of mathematics now play an important role in a strong, winning no-limit hold 'em strategy. But it's also important for the expert player to know when to leave what is known about optimal play and switch to exploitative strategies to maximize his profit.

And this brings us to No-Limit Hold 'em for Advanced Players, Emphasis on Tough Games by Matthew Janda. In this text, Janda spends much time discussing sophisticated strategies that should be employed against tough

opposition, some of which
Twelve Years A Slave (Illustrated) - Solomon Northup 2014-08-22

Twelve Years a Slave (1853) is a memoir and slave narrative by Solomon Northup, as told to and edited by David Wilson. Northup, a black man who was born free in New York, details his kidnapping in Washington, D.C. and subsequent sale into slavery. After having been kept in bondage for 12 years in Louisiana by various masters, Northup was able to write to friends and family in New York, who were in turn able to secure his release. Northup's

account provides extensive details on the slave markets in Washington, D.C. and New Orleans and describes at length cotton and sugar cultivation on major plantations in Louisiana.

Caro's Book of Poker Tells - Mike Caro

One of the ten greatest books written on poker, this must-have book should be in every player's library. If you're serious about winning, you'll realize that most of the profit comes from being able to read your opponents. Caro reveals the the secrets of interpreting tells-physical reactions that reveal information about a player's cards- such as shrugs, sighs, shaky hands, eye contact, and many more. Learn when opponents are bluffing, when they aren't and why-based solely on their mannerisms. Over 170

photos of players in action and play-by-play examples show the actual tells. These powerful ideas will give you the decisive edge.

Positive Poker - Dr. Patricia Cardner with Jonathan Little
Why are the best poker players actually the best? Every serious poker player wants to be successful and many of them have the right technical skills. However, the truth is that there are key mental factors that separate the big winners from everyone else. Patricia Cardner is a psychology professor, licensed professional counselor and dedicated poker player. Gambling Theory and Other Topics - Mason Malmuth 1999

Absolutely must reading for all serious gamblers. Most people who gamble are basically attracted by the action and the excitement that this form of entertainment offers. But a small number of people are quite successful at it. How is this so? What helps these few to make decisions that devastate their opponents? And what do you need to do to become successful at this extremely challenging occupation? This text attempts to answer these questions. You will be introduced to the dynamic concept of non-self-weighting strategies and shown how these strategies apply not only at the "very

exciting gaming tables" but in real life as well. In addition, risk and fluctuations are discussed in terms of the standard deviation and their relationship to each other and to your bankroll. Some of the other topics addressed are bankroll requirements, win-rate accuracy, free bets, which blackjack count is best, lottery fallacies, dangerous ideas, poker tournament strategies (including when it is correct to rebuy), settling up in tournaments, pai gow poker, super pan nine, the world's greatest gamblers, and building pyramids.

FossilMan's Winning Tournament Strategies -

Greg Raymer 2019-06-30

FossilMan's Winning Tournament Strategies is the ultimate guide to practical tournament play. Greg "FossilMan" Raymer, winner of the

WSOP Main Event in 2004, explains everything you need to know to become a successful tournament player. Raymer is not only a big winner at the tables, he also has a unique ability to explain difficult concepts in clear and simple language. Raymer simplifies the learning process by breaking down the complex subject of tournament strategy into the key areas. Chapters on strategy include: the Independent Chip Model (ICM), game theory, poker maths and pot odds, correct betting, playing the big stack and playing the short stack. However, Raymer does not focus merely on the correct technical aspects of standard NL tournament play. He also discusses many other important tournament formats that often confuse players. These include: * how strategy changes in

satellite and rebuy tournaments- * how to play heads-up events and other uncommon formats and the one everyone wants to know about - * how to play the Main Event.

Unfolding Poker - James Sweeney 2017-04-02

Unfolding Poker: Advanced Answers To The Most Frequently-Asked Poker Questions is the latest book by best-selling author James "SplitSuit" Sweeney. day, read it quickly, and put it to use in your next session. Get clear and actionable answers to the questions that impact your winrate today.

Strategies for Beating Small Stakes Poker

Tournaments - Jonathan Little 2015-02-24

While most poker players dream of winning \$10,000,000 on poker's biggest stage, most find it impossible to win at even the smallest stakes. They usually blame bad luck for their failures whereas in reality, they are simply not skilled enough at poker. The secret to mastering poker is not in memorizing hand ranking charts or following a predetermined system. You must learn to think for yourself while at the table in order to adjust your strategy based on your specific opponents. Strategies

for Beating Small Stakes Poker Tournaments will explain how. In this guide, two-time World Poker Tour champion Jonathan Little explains numerous strategies he uses that will allow you to crush your opponents, giving you the opportunity to progress to the middle and high stakes.

Jonathan Little's Excelling at Tough No-Limit Hold'em Games - Jonathan Little

Success beyond the lower stakes demands a highly specific skill set. Excelling at Tough No-Limit Hold'em Games will show you how to develop this skill set so you can rise to the top of the game. Topics include: * Quick tips for beating the low stakes games * Adjusting your preflop strategy * When to c-bet (continuation bet) * How to defend against c-bets * Navigating multi-way pots * Basic ICM (Independent Chip Model) and advanced ICM * Medium stacked final table strategies * Strategies to crush live poker Excelling at Tough No-Limit Hold'em Games

is the essential guide for anyone who is serious about wanting to succeed at the high stakes and make a significant income from poker.

Mastering Poker Math - Chuck Clayton 2018-09-08
Mastering Poker Math teaches the math in Texas No-Limit Hold'em and how to integrate it with other poker skills. *Poker Workbook: Math and Preflop* - James Sweeney 2020

This poker workbook has one goal: to help you actually improve between sessions. By learning powerful concepts and drilling through exercises, your ability to calculate accurately and quickly at the tables improves. Your time at the tables shouldn't be spent trying to calculate pot odds of a call or the breakeven-% of your bluffs. Calculations like these should be

automatic, giving you extra time and brainpower to find ways to optimize your edge during a hand. Now you can practice the math that underlies all aspects of your poker strategy. Drill through the technical side of your preflop playbook. And start putting a bigger gap between your winrate and the regs in your game. This workbook teaches you the formulas and lays out practice exercises for concepts like: Equity Range Building/Hand Reading Combos & Blockers Pot Odds Implied Odds Breakeven % & Auto-Profit Expected Value (EV) Open-Raising 3Betting & 4Betting Preflop All-Ins By learning these simple formulas and practicing them at your own pace, you'll find poker math getting far easier. You don't need an IQ of 175 to master poker math -

you just need some guidance, some shortcuts, and some in-depth training. Complete just a few pages per day, and you'll see serious improvement in the next month. And the best news is that these concepts come into play in every single session, at every single level, and wherever you happen to play poker. So the examples in this book range from live cash games to online tournaments - without bogging you down with confusing variables that will never apply to the poker games you play. The Answer Key Based upon feedback from previous workbooks, there is an included answer key so you can double-check your answers at any point. There is a link on Page #246 so you can download the answer key OR use the online version that will get lifetime

updates. This key also includes all of the range strands, making it easy to copy ranges from the workbook and paste them directly into your poker software. Is This Workbook For You? We all have to start somewhere, and no one is born with technical poker knowledge imprinted in their brain. So truthfully answer each of these: Can you look at a range and correctly estimate its %-form and number of combos? If not, then this book is for you. Do you know how often a player would fold if you 3bet or squeezed them? If not, this book is for you. Do you know how many combos of AQ a player can have on AQ4 when you hold AKs? If not, this book is for you. Do you know how much extra money you need to make when you have 15% equity and are getting 3:1 on a turn call? If not, then this

book is for you. Do you know how often you can expect both the blinds to fold when you raise from the button? If not, this book is for you. Do you know how much equity AKs has against a range of QQ+/AK? If not, this book is for you. Are you 100% confident in your poker math skills yet? If not, then this book is for you. No more excuses. No more confusion when it comes to the core poker math. And no more reasons for skipping another study session. Pick up the Preflop & Math Poker Workbook and start seeing your strategy the right way. Good luck! The spiral design on the cover/back is purely decoration. Unfortunately, spiralbound printing is not an available option at this time.

Exploitative Play in Live Poker - Alexander Fitzgerald 2018-11-19

Many poker players can make good decisions at the table with a reasonable frequency. Nevertheless, there are numerous situations where even very experienced players behave in predictable ways. These deeply-ingrained habits lead them to make mistakes. The problem is that these situations won't often arise at the table by chance – you have to make them happen. Exploitative Play in Live Poker is a groundbreaking work that teaches you how to create the circumstances where your opponents will be likely to blunder and how to exploit them when they do. To achieve this you will need to put to one side starting hand charts, balance and GTO (Game Theory Optimal) play. Instead you will incorporate new concepts that may well place you

outside your comfort zone. However, your style will now be forcing the other players at the table outside of their comfort zone and, unlike you, they won't know how to adapt. Learn how to: Counter the auto-continuation-bettor Develop a powerful donk-betting strategy Use the overbet, the check-raise and the three-barrel effectively As well as being a highly successful player, Alex Fitzgerald runs a poker consultancy that serves more than 1,000 professional poker players in 60 countries. As part of this work, he has very likely trawled through more hand history databases than anyone else. This gives him a unique insight into how players really play, especially when placed under pressure and forced into unfamiliar situations.

Poker Satellite Strategy
- Dara O'Kearney
2019-02-27
The best way for small stakes poker players to earn life-changing amounts of money is to win a satellite into a

bigger tournament. Yet there is surprisingly little poker theory written about how to win satellite tournaments, until now. In *Poker Satellite Strategy* professional poker player Dara O'Kearney gives you a framework for how to approach every stage of a satellite tournament, from the early levels right up to the bubble. This book takes the stress and uncertainty out of satellites. You will learn: *Adjustments you need to make from regular poker tournament strategy *What hands to shove, call and fold on the bubble *When to tighten up and when to keep accumulating chips *Easy poker math to do at the tables *The correct poker GTO ranges (and how to adjust to different player types and situations) *When it's correct to fold Pocket Aces preflop Dara

O’Kearney is a professional poker player from Ireland with a long standing reputation as the best satellite specialist in the game. He has won over \$1 million in satellite tournaments alone and twice won the PokerStars UKIPT satellite leaderboard. He is sponsored by Unibet Poker and is the co-host of The Chip Race Podcast. “In the first 30 minutes of reading, I guarantee you will pick up something that will increase your future expectation to cover the cost of the book tenfold” – Marty “TheLipoFund” Mathis, partypoker PPL Satellite Leaderboard winner “A highly recommended book for anyone looking to play satellites well or related formats like Double or Nothing where multiple finishers receive identical top prizes” ~ Collin Moshman

– author of Sit N’ Go Strategy “Dara has been ahead of the curve on satellites for years and his results show it. This book will change the way you think about, and play, satellites forever.”~Daiva Byrne - professional poker player and advocate for women in poker This book uses the most up-to-date poker ICM calculators, however it has been written in a way to make the poker math you need to do at the tables very simple. Every chapter starts from a poker GTO framework but then explains how you should deviate when the players or table dynamics change. It covers every aspect of satellite play, from the important bubble stage, but even explaining the poker game theory behind late registering, post flop play, poker mindset issues unique to satellites and how to

adjust in live poker tournaments. It has everything a texas hold'em player needs to qualify for big poker tournaments like the World Poker Tour, EPT or World Series of Poker.

Ten powerful chapters cover every aspect of the major hold'em games-limit, no-limit, and pot-limit for cash games and tournaments -- with in-depth coverage on all aspects of play. This weighty volume will be an instant classic-poker players cannot ignore the professional advice from the greatest stars of the game.

The Biggest Game in Town - Al Alvarez 2009-02-03

Al Alvarez touched down in Las Vegas one hot day in 1981, a dedicated amateur poker player but a stranger to the town and its crazy ways. For three mesmerizing weeks he witnessed some of the monster high-stakes

games that could only have happened in Vegas and talked to the extraordinary characters who dominated them--road gamblers and local professionals who won and lost fortunes on a regular basis. Set over the course of one tournament, *The Biggest Game in Town* is both a chronicle of the World Series of Poker--the first ever written--and a portrait of the hustlers, madmen, and geniuses who ruled the high-stakes game in America. It is a brilliant insight into poker's appeal as a hobby, an addiction, and a way of life, and into the skewed psychology of master players and fearless gamblers. With a new introduction by the author, Alvarez's classic account is "the greatest dissection of high-stakes Vegas poker and the madness that surrounds it ever

written" (TimeOut [UK]).

Optimizing Ace King -
Adam Jones 2018-10-08
Ace King is a massively profitable hand. In fact, AK is in the top-5% of winning hands and accounts for a good chunk of your winrate. But despite that fact, many players are confused about how to approach this hand. Should you 3bet it preflop, or just call it? Should you play the suited and offsuit versions the same, or differently? Should you c-bet with air, or check instead? And how many streets of value is top pair really worth? Most players struggle with AK due to small leaks in their strategy. So *Optimizing Ace King* (OAK) doesn't look to give you a bunch of memorized plays and tactics. Instead, OAK

shows you how AK fits within your strategy and ranges. This prepares you for playing AK, among other hands, in a variety of spots and under a variety of conditions. James "SplitSuit" Sweeney and Adam "W34Z3L" Jones co-wrote this book to take an in-depth look at poker strategy through the lens of a single hand. Concepts include 3betting, 4betting, cbetting, barreling, GT0 vs. exploitative play, and deducing lines from GT0 solver output. You will play AK 99.9% of the time you are dealt it, and since it makes up such a large chunk of your winrate, doesn't it make sense to strengthen your approach with it? Each chapter builds upon the last, walking you through preflop play, flop play (when you hit, miss, and flop draws), and turn + river play. Plus there is an entire

chapter full of examples and a chapter dedicated strictly to tournaments. If your winrate with AK could use a boost, invest a few chips and see the ROI in no time at all!(The foreword is written by legendary poker author Ed Miller) *Mastering Small Stakes Cash Games* - Evan Jarvis 2022-02-02 *Mastering Small Stakes Cash Games* is a book where the key word is "mastering". The author, Evan Jarvis, is a professional poker player and highly respected poker coach. He takes a slightly different approach to that used by most poker coaches. The absolute fundamental, as always, is to help players master cash game play but Jarvis takes a holistic approach, recognising that being able to master people and master yourself are equally important in

order to achieve poker success. In order to succeed in cash play it is essential to have a rock solid pre-flop and post-flop game-plan. However, there are other factors to successful play (e.g. game selection, seat selection, buy-in level etc.) that are often neglected. These can be equally important and are all addressed. Do you want to... * Make a good side income from your hobby? * Feel confident and in control when you play? * Be satisfied with your performance at the end of every session, regardless of the outcome? Mastering Small Stakes Cash Games will help you achieve these aims and much more besides.

The Math of Hold'em -

Collin Moshman

2016-02-28

Winning big at holdem requires practical math

knowledge, which is precisely what this book will teach you. The ability to make quick and accurate mathematical decisions is crucial for your winnings at the table. The mission of this book is to drill these important poker math skills into you, giving you a distinct advantage over the other players at your table. Both of the authors of this book graduated with degrees in Mathematics from Caltech. Collin Moshman is the best-selling author of Sit-n-Go Strategy and Heads-Up No-Limit Holdem. Douglas Zare is a mathematician and poker coach famous for his in-depth analyses. The authors use their extensive math, poker, and coaching backgrounds to present the most important hold em math concepts designed to immediately increase

your winrate at the tables. You will learn to: - Understand the fundamental probabilities and statistics underlying Hold em - Count hand combinations while playing - Master expected value calculations - Play optimally with game theory - Seize full advantage of the latest software - Utilize deductive logic to put your opponent on a specific hand range - And more... Poker is a fun game, but it is even more fun when you win. Whether you play cash games or tournaments, high-stakes or low-stakes, online or live poker, The Math of Holdem will give you the significant edge you need over your opponents.

Poker's 1% - Ed Miller
2014-03-15

Elite poker players aren't like the rest of

us. Sure, they play in huge games where tens of thousands of dollars can move in the blink of an eye. But that's not the only difference. Elite players play and think about the game in a completely different way from everyone else. If you want to raise your game to their level, it's not just a matter of getting a little better at what you already do. The honest truth is that the way 99% of poker players approach the game is fundamentally flawed. You will never be able to crack the top 1% until you know what they know. There's one big secret to the game that nearly every elite player knows, yet almost no one else understands. It's an open secret-no one is hiding it. Elite players talk about it sometimes in videos and articles. Nevertheless, top players have known

this secret for years, yet still almost no one else does. Poker's 1% seeks to change that. It bridges that gap between the elite players and everyone else. It promises that as long as you are willing to put in the work, you too have a shot to reach the top. Poker's 1% teaches a way of thinking about how you play, a way to unify every hand you've ever played and ever will play into one single, overarching strategy. The goal is that you will have one big "aha" moment, the moment where you finally "get" this game. After that, it's just fine tuning. The more you fine tune your strategy, the more you win, and the higher you can go. Poker's 1% gives you a unique window into the secrets of the world's best players. It shows you what you've been doing wrong and how to

fix it. And, most importantly, it guides you in a straightforward way along the path from average player to elite. Modern Poker Theory - Michael Acevedo 2019-08-09

Modern Poker Theory is a comprehensive, rigorous guide to the most important aspects of No-Limit Hold'em. It is based around an in-depth examination of what is meant by game theory optimal play (GTO) and how it can be applied at the table. Understanding GTO is fundamental to being able to make accurate poker decisions and being able to exploit players who don't. Modern Poker Theory uses modern poker tools to develop a systematic approach to the analysis of GTO. It organizes the ideas and concepts in an intuitive manner that is totally focused to practical applications. Next time

you are at a table some of the players will have studied Modern Poker Theory and some won't. The players who have studied Modern Poker Theory will, without doubt, have a better theoretical and practical understanding of No-Limit Hold'em. They will be the favourites in the game. Make sure you are one of them. Michael Acevedo, one of the world's leading poker theorists, is a game theory expert who is renowned for creating cutting-edge content for the world's leading players. The production of Modern Poker Theory is the culmination of many thousands of hours of his research work with the most advanced poker software tools available. It is poker theory for the 21st century.

Mike Matusow: Check-Raising the Devil - Mike

Matusow 2012-05-01
The tumultuous rags to riches, fame to fortune, dream to nightmare autobiography of the most volatile and colorful poker player in the world, fan and media favorite Mike "The Mouth" Matusow. This book has it all: drugs, sex, partying like a rock star, jail, suicidal depression, bipolar bouts and world championship poker. Mike "The Mouth" Matusow, one of the top professional poker players in the world (with over \$6 million in tournament earnings) has become more than just a household name. He's a favorite among the millions of television viewers who have come to count on his outrageously candid comments, emotional outbursts, and constant taunts that affirm the aptness of his nickname and make for great

television theatre. A rags-to-riches success story, Matusow's life has been as much nightmare as it has been dream. His struggle with undiagnosed bipolar and ADHD disorders led to self-medication with illegal drugs, such as crystal meth and ecstasy, and a tumultuous descent in the drug-fueled Las Vegas club scene. As drug use turned to drug abuse, Matusow's descent, taking his multi-million dollar bankroll along, went on the downward spiral that led to an arrest for a narcotics buy and the specter of a ten-year prison term (subsequently plea bargained down to a six month jail sentence). The Mouth's story is a high stakes rollercoaster ride featuring an insider's view of some of the world's largest poker

tournaments, unbearable depression and suicidal tendencies, the Las Vegas party scene, rock star-like excess, outrageous antics, drug abuse, jail, and, in many ways, salvation. And through the worst of it, Matusow's phenomenal talent and tenacity prevailed; there was never a year that Mike failed to make a final table in a World Series of Poker event. This memoir is funny, outspoken and brash, while humbly and painfully honest about the highs and lows of poker, life, and the odyssey of overcoming psychological illness in a bastion of pressure and temptation. There is also a foreword by Phil Hellmuth, 11-time World Series of Poker bracelet holder.

Pot-limit Omaha Poker: - Jeff Hwang 2008-01-01
From a semi-professional poker player, a guide to playing and winning the biggest game in town. If you've never tried Pot-Limit Omaha, you're missing out on the most exciting, most lucrative cash game around. Omaha has long been the most popular form of poker in Europe, and now it's spreading like wildfire throughout North America. The reason is simple: Omaha offers more action and bigger pots than Texas Hold 'em. Isn't it time you got in on it? Whether

you're a cash-game professional or poker hobbyist—and whether you play live or online—this book will arm you with a winning big-play strategy that's easy to master even if you've never played Omaha before. You'll discover the subtle distinctions that set Omaha above other games. Key topics include:

- The Big Play Objectives
- The Power of the Big Draw
- Straight Draws and Starting Hand Construction
- Playing the Position Game
- Limit Omaha Hi/Lo and Pot-Limit Omaha Hi/Lo

Complete with practice situations and hand quizzes, this is the most comprehensive Omaha book available—and the only one you'll ever need. “A great addition to poker literature.”—Bob Ciaffone, author of Omaha Poker “Everything you wanted to know about

the game but never asked.”—Lou Krieger, author of Hold ‘Em Excellence

Mastering Small Stakes Pot-Limit Omaha - Fernando "JNandez" Habegger 2020-10-06

Welcome to the wonderful world of Pot Limit Omaha! With four hole cards instead of two, PLO is a far more nuanced game than No-Limit Hold'em and one that emphatically rewards greater skill. This makes it a very profitable game for serious players – especially when playing at the small stakes where recreational players consistently make expensive preflop and postflop mistakes. *Mastering Small Stakes Pot-Limit Omaha* is a thoroughly comprehensive guide that will give you all the tools you need to gain a huge edge at lower stakes play.

Fernando "JNandez"

Habegger is a successful high stakes professional player and leading PLO coach with his own training site at PLOMastermind.com. He has trained hundreds of players to become successful at PLO. In *Mastering Small Stakes Pot-Limit Omaha*, preflop play is broken down by identifying nine different hand categories and analysing how hands within each of them are handled preflop. Postflop analysis is based around the powerful technique of the Four Pillars of Postflop Play. The combination of these two creates a powerful gameplan that constitutes a fast track route to domination at the lower stakes. Further topics include adjusting to live play, PLO tournaments, building the right improvement habits, dealing with variance,

and managing your PLO bankroll.

What do you think about when you sit down to play live no-limit cash games? If it's only your hand and how you should play it then you need to think again! There is much, much more to being a good live cash player than simply playing your hand "correctly". You need to develop a whole host of other skills. Jonathan Little, a top-ranking professional poker player, will teach you these skills. Jonathan has justifiably gained a reputation as

one of the best instructors the game has ever seen. He has an almost unique ability to explain difficult poker concepts in simple terms. Jonathan thoroughly examines the difficult topic of how to modify your play on all post-flop streets based on: The pre-flop action: limped, raised and re-raised pots have different dynamics Being in position or out of position Whether you are

the aggressor Whether you have a strong made hand, a drawing hand or a bluff Jonathan analyzes the numerous different player types and explains how to adjust your game to play well against each of them. In Live No-Limit Cash Games Jonathan also discusses key "non-poker" concepts including: Bankroll management Game selection Spotting and concealing tells Emotional control
