Family Engagement in Black Students' Academic Success -

Vilma Seeberg 2021-03-16

This timely volume presents powerful stories told by Black families and students who have successfully negotiated a racially fraught, affluent, and diverse suburban school district in America, to illustrate how they have strategically contested sanctioned racist practices and forged a path for students to achieve a high-quality education. Drawing on rich qualitative data collected

through interviews and interactions with parents and kin, students, community activists, and educators, *Family Engagement in Black Students' Academic Success* chronicles how pride in Black American family history and values, students' personal capabilities, and their often collective, proactive challenges to systemic and personal racism shape students' academic engagement. Familial and collective cultural wealth of the Black community emerges as a central driver in students' successful achievement. Finally, the text puts forward key recommendations to demonstrate how incorporating

the knowledge and voices of Black families in school decision making, remaining critically conscious of race and racial history in everyday actions and longer term policy, and pursuing collective strategies for social justice in education, will help eliminate current opportunity gaps, and will counteract the master narrative of underachievement ever-present in America. This volume will be of interest to students, scholars, and academics with an interest in matters of social justice, equity, and equality of opportunity in education for Black Americans. In addition, the text offers key insights for school authorities in building

effective working relationships with Black American families to support the high achievement of Black students in K-12 education.

mention Palestrina's Improperia

and Mozart's Ave verum as

instances of this." -Sir Richard
